Modesto Irrigation District

Financial Statements and
Supplementary Information

December 31, 2023 and 2022

Independent Auditors' Report

To the Board of Directors of
Modesto Irrigation District

Opinions

We have audited the accompanying financial statements of the Modesto Irrigation District and its component units (District), as of and for the years ended December 31, 2023 and 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the District as of December 31, 2023 and 2022, and the changes in financial position and, where applicable, cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 2, the District adopted the provisions of GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*, effective January 1, 2023. Accordingly, the accounting changes have been retroactively applied to prior periods presented. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information, as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The combining schedules of fiduciary net position and changes in fiduciary net position as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects, in relation to the basic financial statements as a whole.

MODESTO IRRIGATION DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Years Ended December 31, 2023 and 2022 - Unaudited

Overview:

The following management discussion and analysis of the Modesto Irrigation District and its fiduciary funds (District) provides an overview of the financial activities and transactions for fiscal years 2023 and 2022 in the context of the requirements of the Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments* , as amended. This discussion and analysis should be read in conjunction with the District's audited financial statements and accompanying notes.

Financial Reporting:

The District's accounting records are maintained in accordance with Generally Accepted Accounting Principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB).

Explanation of Financial Statements:

The financial statements for the District include a Statement of Net Position; Statement of Revenues, Expenses and Changes in Net Position; Statement of Cash Flows, Statement of Fiduciary Net Position; Statement of Changes in Fiduciary Net Position; and Notes to the Financial Statements.

Statement of Net Position:

The Statement of Net Position provides information about assets, deferred outflows of resources, liabilities, deferred inflows of resources and equity of the District at a specific point in time. Assets are economic resources the District owns that have value and can either be sold or used by the District to produce products or services that can be sold. Assets include power generation plants, vehicles, equipment, inventory, cash and investments, and customer accounts receivable.

Deferred outflows of resources represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense) until that time.

Liabilities are amounts of money that the District owes to others. This includes debt, money owed to suppliers for materials, payroll, and taxes owed to other governmental agencies.

Deferred inflows of resources represents an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time.

Equity or Net Position are the funds that would be left if the District sold all of its assets and paid off all of its liabilities.

Statement of Revenues, Expenses and Changes in Net Position:

The Statement of Revenues, Expenses and Changes in Net Position is more commonly known as the Income Statement. This statement provides information regarding the District's operations including revenue earned and expenses incurred over a one year period. The "bottom line" of the statement shows the District's end of year net position.

Statement of Cash Flows:
The Statement of Cash Flows reports the District’s inflows and outflows of cash. This report provides management with information regarding cash on hand and the ability to pay expenses and purchase assets.

A cash flow statement reflects changes over time rather than absolute dollar amounts at a point in time. The bottom line of the cash flow statement shows the net increase or decrease in cash for the period. Cash flow statements are divided into three activities: (1) operating activities; (2) investing activities; and (3) capital financing activities.

1. Operating Activities – analyzes the cash flow from operational activities (Operating Income and Expenses). This section of the cash flow statement reconciles the operating income to the actual cash MID received from or used in its operating activities. To facilitate this, the operating income is adjusted for any non-cash items (depreciation expenses) and any cash that was used or provided by other operating assets and liabilities.

2. Investing Activities – reflects the cash flow from all investing activities including purchases or sales of investment securities.

3. Capital Financing Activities – shows the cash flow from all financing activities. Typical sources of cash flow include funds received from borrowings, paying back debt service, and the purchase of capital assets.

Statement of Fiduciary Net Position:

The Statement of Fiduciary Net Position reports the financial resources available for future pension and other retirement benefits.

Statement of Changes in Fiduciary Net Position:
The Statement of Changes in Fiduciary Net Position (Income Statement) reflects the additions and deductions and net increase (decrease) in net position held in trust for pension and other retirement benefits.

The following is a comparative financial summary for years ending December 31, 2023, 2022, and 2021.

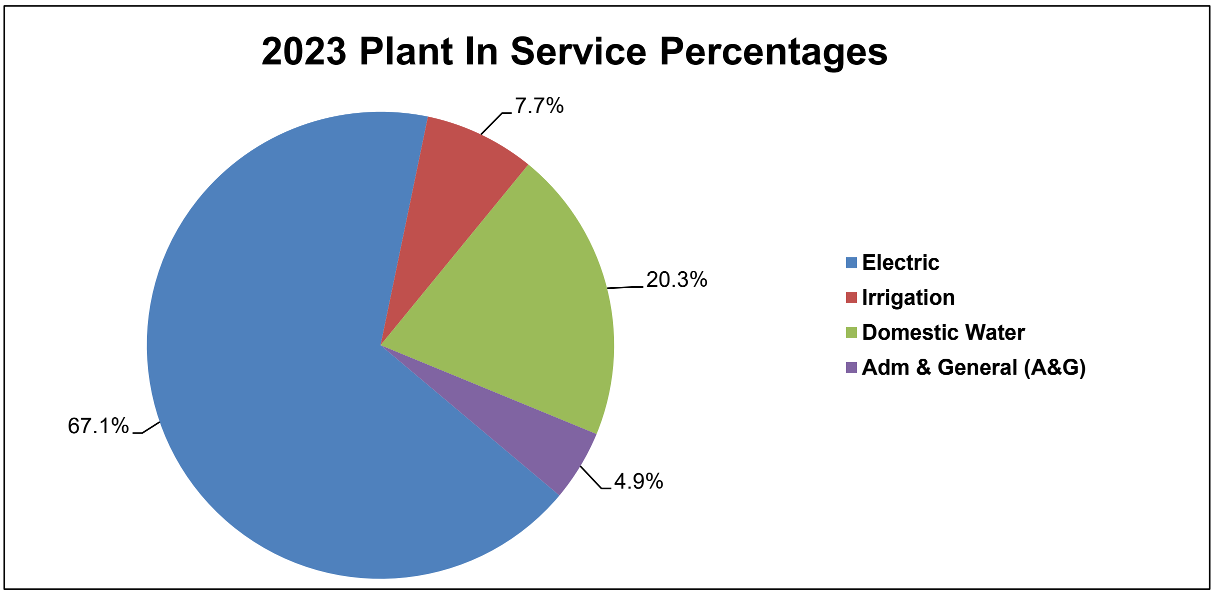
ASSETS and DEFERRED OUTFLOWS

Utility Plant, net
MID has invested approximately $714.2 million in utility plant assets net of accumulative depreciation and transferred approximately $19.6 million of assets from construction in progress to utility plant in service in 2023. This includes $18.1 million in electric system additions, $1.2 million in irrigation system additions, $0.2 million in domestic water additions, and $4.9 million in administration and general capital asset additions, partially offset by the addition of $4.8 million in subscription assets in the restatement of 2022. The following chart reflects the percentage breakdown of Utility Plant net of depreciation by category as of December 31, 2023.



Utility plant increased by approximately $19.7 million in 2023 due to additions to plant in service of $48.5 million and an increase of $1.7 million construction work in progress. Accumulated depreciation increased $30.6 million due to annual depreciation expense.

Utility plant increased by approximately $2.8 million in 2022 due to additions to plant in service of $31.6 million, which includes the addition of subscription assets of $4.8 million, offset by an increase of $14.5 million construction work in progress. Accumulated depreciation increased $43.3 million due to annual depreciation expense.

Other non-current assets and investments
Other non-current assets and investments increased $76.3 million in 2023. This increase is due to an increase in Investments, unrestricted of $17.5 million due to decreased commodity and purchased power costs, and an increase in cash and investments - restricted of $95.4 million related to the issuance of the 2023 bonds which included new bond proceeds for capital improvements as well as refinancing existing debt. This is partially offset by a decrease in scheduled amortization of $8.6 million related to regulatory costs for future recovery related to pension and post employment benefits, a decrease of $28.5 million in Capital improvement funds spent on capital improvements, a decrease in lease receivable of $2.4 million and increases of $3.4 million and $0.8 million in Equity interest in TANC and Equity interest in M-S-R Public Power Agency respectively.

Other non-current assets and investments decreased $33.7 million in 2022. This decrease is due to a decrease in Investments, unrestricted of $36.5 million due to increased commodity and purchased power costs, a reduction in scheduled amortization of $9.5 million related regulatory costs for future recovery related to pension and post employment benefits, a decrease in cash and investments - restricted of $17.7 million related to spending $18.0 million in bond proceeds on capital improvements. This is partially offset by an increase of $7.4 million increase in Capital improvement fund, an increase of $9.2 million related to a new land lease recorded in 2022 in accordance with GASB 87, and increases of $3.3 million and $8.3 million in Equity interest in TANC and Equity interest in M-S-R Public Power Agency respectively.

Current assets

Current assets remained relatively flat in 2023 with an increase of $3.0 million. The change is due to an increase in Cash and cash equivalents - unrestricted of $4.0 million or 8.6% due to decreased commodity and purchased power costs during 2023 along with a decrease in Customer accounts receivable of $6.3 million or 16.4%. This decrease is due to a full year of collection activities and the threshold for disconnects returning to pre-pandemic levels. These decreases were partially offset with an increase in materials and supplies of $3.7 million or 21.0% over prior year and an increase in Other current assets of $3.7 million or 28.2% due to recording $2.4 million current portion of the Lease receivable.

Current assets decreased by approximately $14.7 million in 2022. The decrease is primarily due to a decrease in Cash and cash equivalents - unrestricted of $15.4 million or 25% due to increased commodity and purchased power costs during 2022 along with a decrease in Customer accounts receivable of $5.2 million or 11.85%. This decrease is due to the application of CAPP 2.0 (California Arrearage Payment Program) funds in the amount of $1.8 million received and applied to customer accounts in December. It is also worthy to note that collections resumed in April 2022 and the first disconnects began in June 2022. These decreases were partially offset with an increase in materials and supplies of $2.5 million or 16.3% over prior year and an increase in Other current assets, net of $2.5 million or 22.8% primarily due to the current portion of a new land lease recorded in 2022 in accordance with GASB 87.

Deferred Outflows of Resources

In 2023 deferred outflows of resources increased by $56.5 million. The increase is primarily due to an increase of $46.3 million in Deferred outflows related to pension, an increase of $9.6 million in Deferred outflows related to OPEB, and a small increase of $2.0 million in Deferred cash flow hedges - Unrealized loss in derivatives, partially offset by a small decrease of $1.5 million in Unamortized loss on advanced refunding.

In 2022 deferred outflows of resources decreased by $28.7 million. The decrease is primarily due to a decrease of $15.4 million in Deferred cash flow hedges - Unrealized loss on derivatives, a decrease of $8.8 million in Deferred outflows related to pension due to a contribution being recognized in 2022, an decrease of $3.3 million in Deferred outflows related to OPEB, and a decrease in Unamortized loss on advanced refunding of $1.2 million due to scheduled amortization during the current year.

LIABILITIES AND NET POSITION

Long-term debt

Long-term debt increased by $82.6 million in 2023 due to the refunding of the 2012A bonds and the issuance of the 2023 A&B bonds, offset by scheduled debt service payments.

Long-term debt decreased by $38.6 million in 2022 due to scheduled debt service payments.

Non-current liabilities

Non-current liabilities increased by $138.1 million in 2023. This increase is primarily due to the Net pension asset of $1.1 million at year end 2022 becoming a Net pension liability of $105.3 million at year end 2023, an increase of $15.9 million in Net OPEB liability, an increase in Unamortized premium of $15.9 million which included an addition of $26.6 million related to the 2023 A&B Bonds offset by scheduled amortization of debt premium of $10.7 million during 2023, partially offset by a small increase of $1.4 million in Other liabilities.

Non-current liabilities decreased by $78.3 million in 2022. This decrease is primarily due to the Net Pension liability of $35.3 million at year end 2021 becoming a Net pension asset of $1.1 million at year end 2022, a decrease of $23.9 million in Net OPEB liability, a decrease in the fair value of derivative financial instruments of $14.7 million, and scheduled amortization of debt premium of $8.4 million during 2022, partially offset by the addition of a Subscription liability of $3.4 million and a small increase of $0.7 million in Other liabilities.

Current liabilities

Current liabilities decreased by $10.5 million in 2023 due to a decrease in of $10.8 million in Accounts payable partially offset by a small increase in Interest payable of $0.4 million.

Current liabilities increased by $12.9 million in 2022 due to an increase in of $11.9 million in Accounts payable due mainly to an increase in commodity prices, an increase of $0.9 million in Current portion of long-term debt, the addition of $0.7 million for Current portion of subscription liability, partially offset by a small decrease in Interest payable of $0.7 million.

Deferred inflow of resources

Deferred inflow of resources decreased by $76.8 million in 2032 due to a decrease in Deferred inflows related to pension of $51.2 million, and a decrease of $22.3 related to Deferred inflows related to OPEB, a decrease of $2.2 million related to Deferred inflows related to leases, a decrease of $1.9 million reallotted to unearned revenue partially offset by an Unamortized gain on reacquisition related to the issuance of the 2023 A&B bonds of $0.8 million.

Deferred inflow of resources increased by $26.8 million in 2022 due to an increase in Deferred inflows related to pension of $15.6 million, and an increase of $11.2 million Deferred inflows related to leases compared to $3.3 million in the restated 2021 numbers due to a new lease recorded in 2022 in accordance with GASB 87.

Net position

In 2023, the District’s net investment in capital assets increased by $14.6 million primarily due to investments in fixed assets.

Unrestricted net position increased by approximately $7.9 million in 2023 due to an increase in Investments - unrestricted and Cash and cash equivalents - unrestricted primarily due to a reduction in commodity and purchased power costs in 2023 when compared to 2022.

In 2022, the District’s net investment in capital assets increased by $30.0 million primarily due to investments in fixed assets offset by a decrease in outstanding debt.

Unrestricted net position decreased by approximately $27.8 million in 2022 due to a decrease in Investments - unrestricted and Cash and cash equivalents - unrestricted primarily due to increased commodity and purchased power costs in 2022.

STATEMENT OF REVENUES, EXPENSES, AND CHANGES IN NET POSITION

Operating Revenues

Changes from 2022 to 2023

In 2023, Operating revenue increased by $13.5 million or approximately 3%.

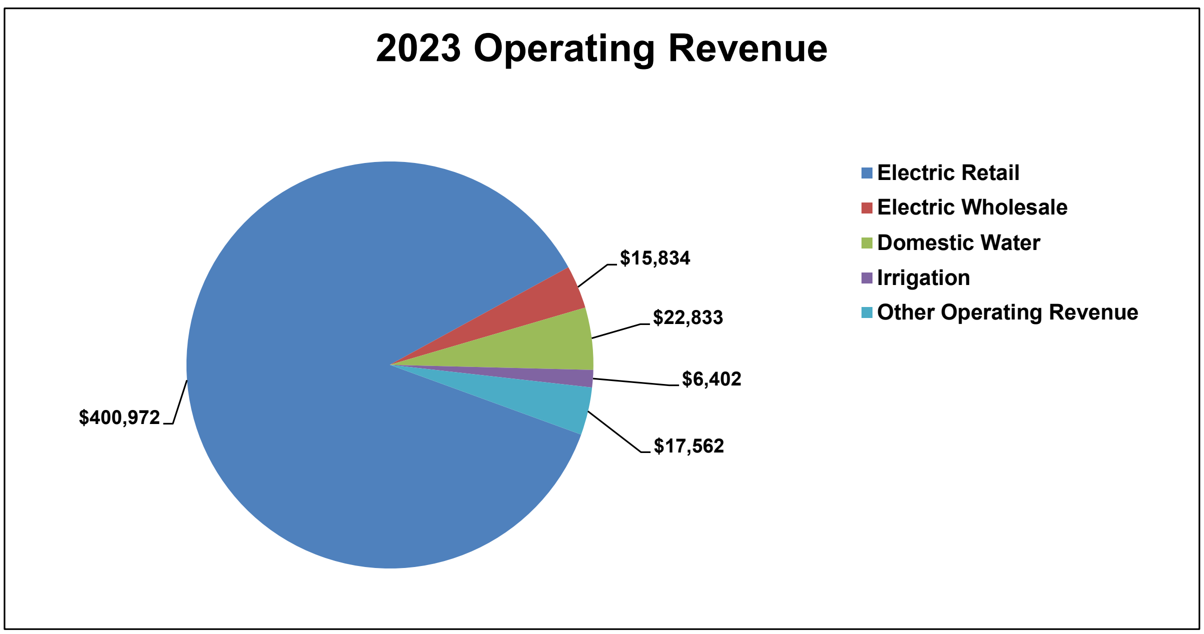
Retail electric revenue increased by $21.7 million or approximately 5.72%. Retail consumption increased over the prior year.

Wholesale electric revenue decreased by $5.9 million or approximately 27.26% over prior year.

In 2023, Domestic Water revenue increased by $1.4 million or approximately 6.68%.

Other operating revenue decreased by $4.9 million or 21.75% when compared to prior year.

The following is the District's 2023 operating revenue (**dollars are in thousands**):



Operating Revenues

Changes from 2021 to 2022

In 2022, Operating revenue increased by $8.6 million or approximately 1.94%.

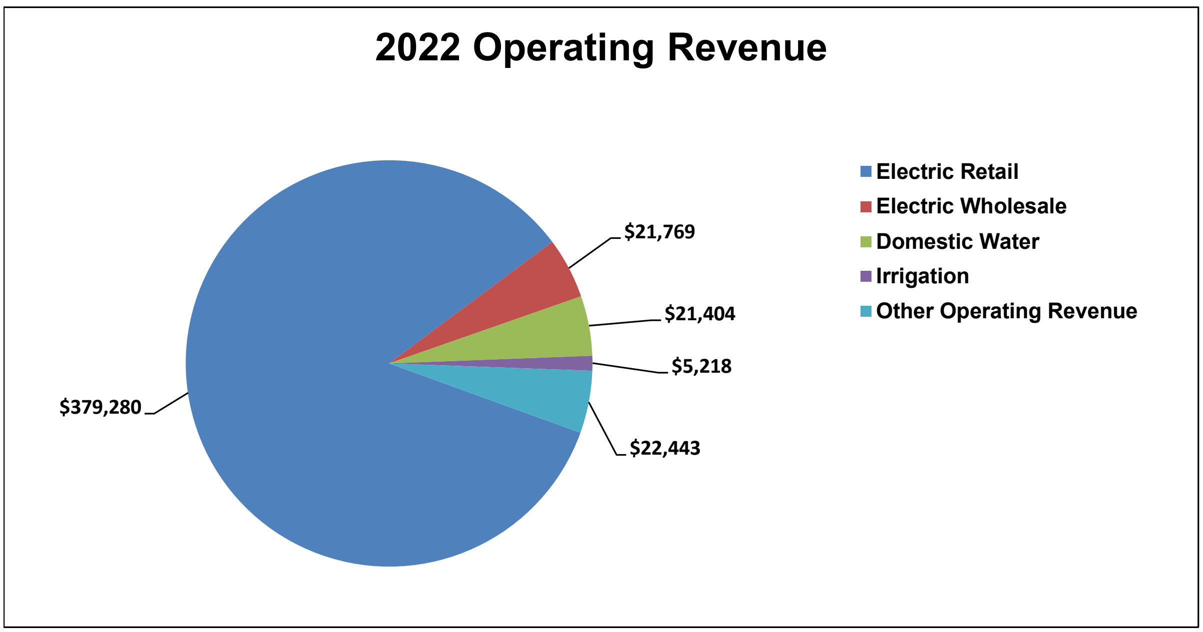
Retail electric revenue increased by $8.4 million or approximately 2.26%. Retail consumption increased over the prior year.

Wholesale electric revenue increased by $2.2 million or approximately 11.26% over prior year.

In 2022, Domestic Water revenue remained relatively flat with a small increase of $0.7 million or approximately 3.33%.

Other operating revenue decreased by $2.6 million or 10.27% over prior year.

The following is the District's 2022 operating revenue (**dollars are in thousands**):



Operating Expenses

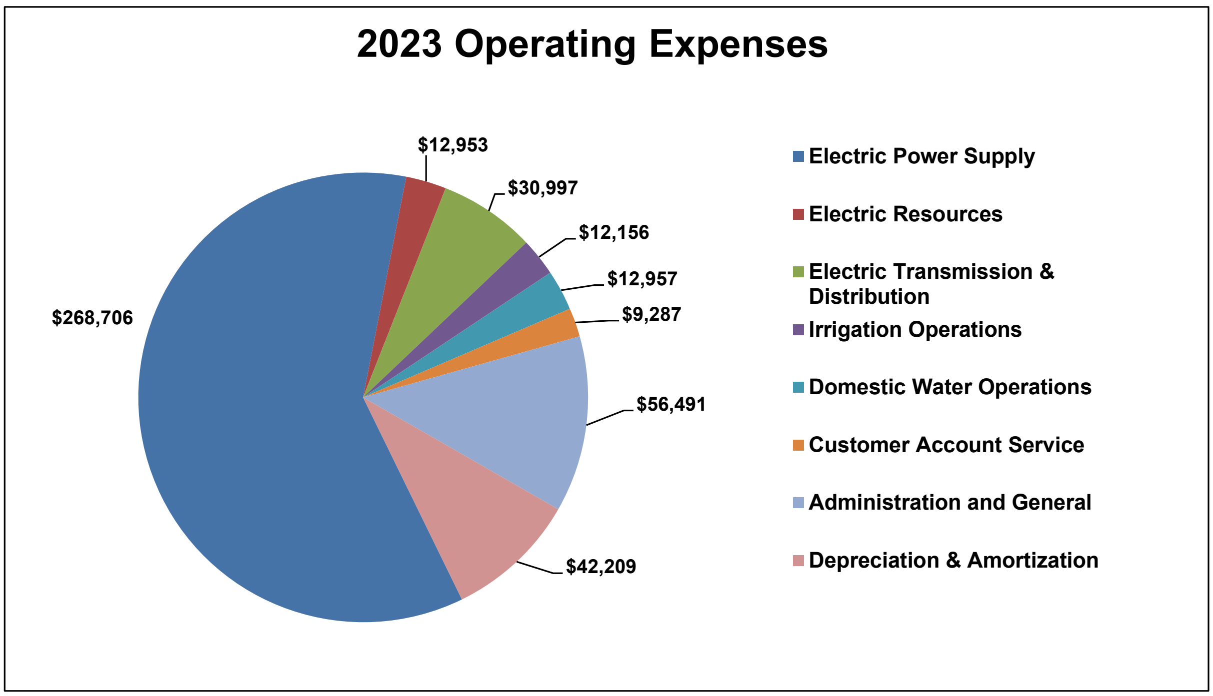
Changes from 2022 to 2023

Total operating expenses reflect an increase of approximately $16.6 million or 3.87% in 2023. The increase is due to increased Administrative and general costs of $31.9 million related to an increase in Pension and OPEB expense, an increase in Electric transmission and distribution costs of $4.6 million, partially offset by a decrease of $18.5 million in Purchased power and Power generation costs and a decrease of $1.8 million in Irrigation operations.

Purchased power and power generation expenses for 2023 reflect a decrease of approximately $18.5 million or 6.45%. The change is mainly due to a decrease in Purchased power costs and an decrease in natural gas prices. Consumption increased in 2023 when compared to 2022.

Expenses for Domestic Water increased by $1.7 million or 14.86% when compared to 2022.

The following depicts the 2023 operational expenses (**dollars are in thousands**):



Operating Expenses

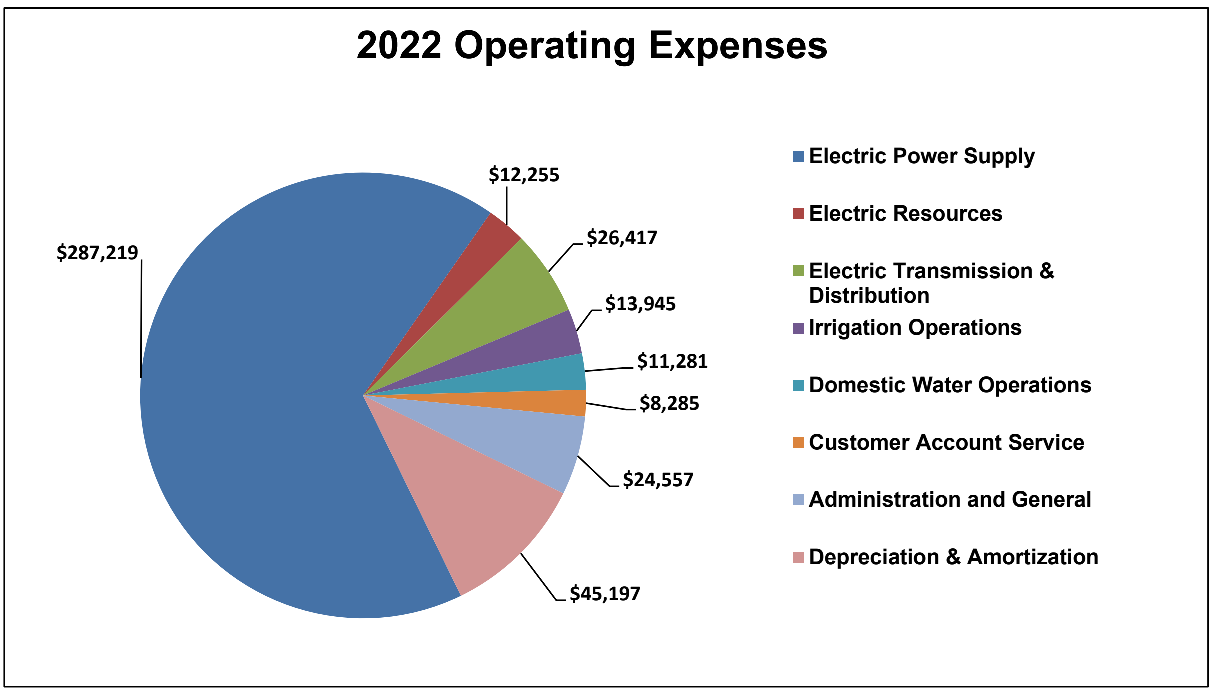
Changes from 2021 to 2022

Total operating expenses reflect an increase of approximately $36.2 million or 9.22% in 2022. The increase is due to increased costs for Purchased power of $41.6 million, partially offset by a decrease of $5.8 million in Administrative and general costs.

Purchased power and power generation expenses for 2022 reflect an increase of approximately $42.4 million or 17.32%. The change is mainly due to an increase in Purchased power costs and an increase in natural gas prices. Consumption increased in 2022 when compared to 2021.

Expenses for Domestic Water increased by $0.8 million or 8.00% when compared to 2021.

The following depicts the 2022 operational expenses (**dollars are in thousands**):



Non-Operating Revenue (Expenses)

Investment income

Investment and Other income, net increased in 2023 by $16.3 million primarily due to an increase of $17.1 million investment income, $1.0 million increase in amortization of premium and loss on refunding, partially offset by a reduction of $1.8 million in Grant revenue due to no grant revenue being received in 2023.

Investment and Other income, net decreased in 2022 by $10.5 million due to a decrease in Investment income of $5.1 million and a decrease of $5.3 million in Grant revenue of $1.8 million in 2022 when compared to $7.2 million in 2021.

Interest expense

Interest expense for 2023 increased $2.5 million over prior year due to the issuance of the 2023 A&B bonds, partially offset by scheduled interest payments.

Interest expense for 2022 decreased $1.7 million over prior year due to scheduled interest payments.

Other non-operating Income, net

Other non-operating income increased in 2023 by $8.3 million due to an increase of $5.7 million due to gains on the sale of assets to other agencies and $2.2 million in site license and scheduling fees related to a new lease agreement per GASB 87.

Other non-operating income remained relatively flat with a decrease in 2022 of $0.1 million over the prior year.

1. Organization and Description of Business

The Modesto Irrigation District (the District) was formed in 1887 and operates as a nonregulated special district of the State of California. The District provides electric power on an exclusive basis within a 160 square mile service area in Stanislaus County and in the Don Pedro Reservoir area in Tuolumne County. The District also provides electric power in portions of southern San Joaquin County. The District provides irrigation water to an area of California's Central Valley that lies between the Tuolumne and Stanislaus rivers. The District also operates a surface water treatment plant that provides water for the City of Modesto's (the City) domestic water supply.

The District is managed by a Board of Directors. The District's Board of Directors has the authority to fix rates and charges for the District's commodities and services. As a public power utility, the District is not subject to regulation or oversight by the California Public Utilities Commission (CPUC). The District may also incur indebtedness including issuing bonds. The District is exempt from payment of federal and state income taxes.

2. Summary of Significant Accounting Policies

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The significant accounting principles and policies utilized by the District are described below.

Reporting Entity

As required by accounting principles generally accepted in the United States of America, these financial statements present the District, its component unit, the Modesto Irrigation District Financing Authority (the Authority) and the following component units presented as fiduciary activities (collectively referred to as the Plan):

Retirement System Basic Retirement Plan (a pension trust fund) is a single-employer defined benefit plan for all eligible District employees and Directors.

Retirement System Supplemental Retirement Plan (a pension trust fund) is a defined contribution plan and serves as partial or full replacement of social security for participants, depending upon date of employment.

Retiree Medical Benefits Plan (another postemployment benefit trust fund) is a single-employer defined benefit healthcare plan for all eligible retirees and their spouses.

The Authority, a joint power authority composed of the District and the City of Redding, provides financing for public improvements of the District. The District's Board of Directors serves as the Authority's Board, and District employees provide all of the Authority's administrative and management functions. All of the Authority's financial transactions, except the payment of debt service, are transacted with the District. Accordingly, all operations of the Authority are consolidated into the District's financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place. The District's accounting records generally follow the Uniform System of Accounts for Public Utilities and Licensees prescribed by the Federal Energy Regulatory Commission (FERC).

Presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

In May 2020, the GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*. This statement establishes accounting and financial reporting requirements related to subscription-based information technology arrangements (SBITAs) for government end users. This statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset - an intangible asset - and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. The Utility adopted this statement effective January 1, 2023. The accounting change has been applied retroactively to 2022.

Cash and Cash Equivalents

Cash equivalents include all financial instruments with maturity dates of 90 days or less from the date of purchase and all investments in the Local Agency Investment Fund (LAIF), and money market mutual funds. LAIF has an equity interest in the State of California Pooled Money Investment Account (PMIA). PMIA funds are on deposit with the State's Centralized Treasury System and are managed in compliance with the California Government Code, according to a statement of investment policy which sets forth permitted investment vehicles, liquidity parameters and maximum maturity of investments. The PMIA cash and investments are recorded at amortized cost, which approximates fair value. The District's deposits with LAIF are generally available for withdrawal on demand.

Investments

Generally, all investments are carried at their fair value, except for guaranteed investment contracts (GICs), which are carried at cost. Fair values are based on methods and inputs as outlined in Note 3. Fair values may have changed significantly after year-end.

Allowance for Doubtful Accounts

The District recognizes an estimate of uncollectible accounts for its customer accounts receivable related to electric service based upon its historical experience with collections. The District has an allowance for doubtful accounts for its electric retail customers of $560 and $3,206 as of December 31, 2023 and 2022, respectively. The District's net expense relating to doubtful accounts for all accounts receivable is included in the accompanying statements of revenues, expenses and changes in net position as an offset to operating revenues. The District recorded bad debt expense of $(80) and $910 at December 31, 2023 and 2022, respectively.

Materials and Supplies

Materials and supplies are generally used for construction, operation and maintenance work, and are not for resale. They are valued at the lower of cost or fair value utilizing the average cost method and charged to construction or expense when used.

The balance includes greenhouse gas allowances used for generation of $1,724 and $2,484 as of December 31, 2023 and 2022, respectively. Allowances are valued at the lower of cost or fair value utilizing the average cost method and charged to generation expense when used. Any allowances held for sale are recorded at fair value at year-end. No allowances were held for sale at December 31, 2023 and 2022.

Restricted Assets

Mandatory segregations of assets are presented as restricted assets. Such segregations are required by bond agreements and other external parties. Current liabilities payable from these restricted assets are so classified.

Capital Improvement Fund

The District bills each customer a per kilowatt-hour capital infrastructure surcharge. These funds are segregated to pay for future capital improvements.

Prepayments

The balance represents payments to vendors for costs applicable to future accounting periods.

Regulatory Costs for Future Recovery

As a regulated entity, the District's financial statements are prepared in accordance with GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, which require that the effects of the rate making process be recorded in the financial statements. Accordingly, certain expenses and credits normally reflected in the change in net position as incurred are recognized when included in rates. The District records regulatory assets and credits to reflect rate-making actions of the Board.

The account includes the following components:

- Unamortized debt issuance costs of previously issued bonds of the District. Unamortized debt issuance costs are being amortized over the life of the remaining bonds

- The original unfunded net pension liability under GASB Statement No. 68. The balance is being amortized straight line over 20 years to expense to match the District's funding of the plan.

(In Thousands)

- The original unfunded net OPEB liability under GASB Statement No. 75. The balance is being amortized straight line over 20 years to expense to match the District's funding of the plan.

	2023	2022
Unamortized debt issuance costs	$ 3,003	$ 2,644
Initial unfunded pension liability	49,252	52,331
Initial unfunded OPEB liability	94,832	100,759
Total	$ 147,087	$ 155,734

Other Current and Long-Term Assets

Other current and long-term assets represent miscellaneous receivables and deposits. Included is a receivable from the City of Modesto for a domestic water pipeline project of $0 and $333 of the 2023 and 2022 balances, respectively. The balance of other long-term assets is a receivable from Transmission Agency for Northern California (TANC) discussed in Note 7.

Leases

The District is a lessor because it leases capital assets to other entities. As a lessor, the District reports a lease receivable and corresponding deferred inflow of resources in the financial statements. The District continues to report and depreciate the capital assets being leased as capital assets. The District has a policy to recognize leases with an initial contract value over $250 as a lease receivable. The current portion of the lease receivable ($2,440 in 2023 and $2,243 in 2022) are included in other current assets on the statement of net position.

Capital Assets

Capital assets are generally defined by the District as assets with an initial, individual cost of more than $5 and an estimated useful life in excess of three years.

Capital assets are stated at cost or the estimated acquisition value at the time of contribution to the District. Costs and related accumulated depreciation of assets sold or otherwise disposed of are eliminated from the accounts and related gains or losses are considered nonoperating. The costs of replacement are charged to District plant. Repair and maintenance costs are charged to expense in the period incurred.

Depreciation is computed using the straight-line method over the useful lives of the assets, which generally range from 20 to 50 years for electric and domestic water plant assets and ten to one hundred years for irrigation system assets. The estimated useful lives of furniture, fixtures, equipment and other assets range from 5 to 20 years.

Deferred Outflows of Resources

A deferred outflow of resources represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense) until that future time.

Accrued Vacation

Under terms of employment, employees are granted vacation time in varying amounts. Only benefits considered to be vested are disclosed in these statements. Vested vacation pay is accrued when earned in the financial statements. The liability is liquidated from general operating revenues of the District. At December 31, 2023 and 2022, the District recorded accrued vacation time of $4,375 and $4,467, respectively. The liability is included in accounts payable and other accruals in the accompanying statements of net position.

Other Liabilities

Other liabilities include customer meter deposits of $9,724 and $7,777 at December 31, 2023 and 2022, respectively. Other costs in the account include power cost true-ups, potential rate refunds, arbitrage liability and other miscellaneous long-term liabilities.

Asset Retirement Obligations

The District has identified potential retirement obligations related to certain transmission, distribution and irrigation canal facilities located on properties that do not have perpetual lease rights. The District's nonperpetual leased land rights generally are renewed continuously because the District intends to utilize these facilities indefinitely. Since the timing and extent of any potential asset retirements are unknown, the fair value of any obligations associated with these facilities cannot be reasonably estimated. Accordingly, a liability has not been recorded at December 31, 2023 and 2022 for these assets.

The District accrues costs related to capital assets when an obligation to decommission facilities or other liability is legally required.

Net Pension Liability (Asset)

A net pension liability (asset) is recorded in accordance with GASB Statement No. 68. The liability (asset) is the difference between the actuarial total pension liability and the Plan's fiduciary net position as of the measurement date. See Note 11 for additional information.

Net Other Postemployment Benefit (OPEB) Liability

A net OPEB liability is recorded in accordance with GASB Statement No. 75. The net OPEB liability is the difference between the actuarial total OPEB liability and the Plan's fiduciary net position as of the measurement date. See Note 11 for additional information.

Long-Term Debt

Long-term debt and other obligations are reported as liabilities. Bond premiums and discounts are amortized over the life of the bonds using the effective interest rate method. Gains or losses on prior refundings are amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter. The balance at year-end for premiums and discounts is shown as an increase or decrease in the liability section of the statements of net position. The balances at year-end for the gains and losses on refunding are shown as either a deferred outflow of resources or deferred inflow of resources in the statements of net position.

Subscription-Based Information Technology Arrangements

The District reports a subscription liability and an intangible right-to-use asset (known as a subscription asset) in the financial statements. The District has a policy to recognize subscriptions over $250 as a subscription liability and intangible capital asset.

Deferred Inflows of Resources

A deferred inflow of resources represents an acquisition of net position that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time.

Billings to the City in connection with the Domestic Water Project (the Project) in advance of the operation of the facility were recorded as unearned revenues. Annual differences between billings to the City and the District's annual Project costs are charged or credited to unearned revenues. These differences are being amortized over the life of the facility. Accordingly, the District's financial statements reflect Domestic Water operations on a break-even basis, consistent with the operating agreements between the District and the City.

Net Position

GASB Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, requires the classification of net position into three components - net investment in capital assets; restricted; and unrestricted. These classifications are defined as follows:

Net Investment in Capital Assets - This component of net position consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of net investment in capital assets. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.

Restricted - this component of net position consists of constraints placed on net asset use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted - This component of net position consists of net position that does not meet the definition of "restricted" or "net investment in capital assets".

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Revenues and Expenses

The District distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the District's principal ongoing operations. The principal operating revenues of the District are charges to customers for sales and services. Operating expenses include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Electric and Irrigation Revenues

Retail and wholesale electric revenues are billed on the basis of monthly cycle bills and are recorded as revenue when the electricity is delivered. The District records an estimate for unbilled revenues earned from the dates its retail customers were last billed to the end of the month. At December 31, 2023 and 2022, unbilled revenues of $18,370 and $12,580, respectively, are included in customer accounts receivable in the statements of net position.

Irrigation revenues are recognized when billed based on annual assessments, payable with installment payments due in June and December.

Purchased Power

The majority of the District's power needs are provided by power purchases. These power purchases are principally made under long-term agreements with the M-S-R Public Power Agency and the Hetch Hetchy System, owned and operated by the City and County of San Francisco. Additionally, the District purchases power from others under various power purchase agreements. Gains or losses on power purchase and sale transactions that are settled without physical delivery are recorded as net additions or reductions to purchased power expense.

Grant Revenue

In 2021, the District was a State of California subrecipient of federal Coronavirus State and Local Fiscal Recovery Funds in the amount of $7,169. In 2022, the District received additional State budget funding of $1,829. The funds are to be applied to delinquent customer accounts as dictated by the programs. No additional funds were received in 2023.

Capital Contributions

Cash and capital assets are contributed to the District from customers and external parties. The value of property contributed to the District is reported as capital contributions on the statements of revenues, expenses and changes in net position.

Comparative Data

Certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

Effect of New Accounting Standards on Current Period Financial Statements

GASB has approved GASB Statement No. 100, *Accounting Changes and Error Corrections—an Amendment of GASB Statement No. 62*, Statement No. 101, *Compensated Absences* and Statement No. 102, *Certain Risk Disclosures*. When they become effective, application of these standards may restate portions of these financial statements.

3. Cash and Investments

The District's investment policies are governed by the California Government Codes and its bond indenture, which restricts the District's investment securities to obligations which are unconditionally guaranteed by the United States (U.S.) government or its agencies or instrumentalities; direct and general obligations of the State of California (State) or any local agency within the State; bankers' acceptances; commercial paper; certificates of deposit; time certificates of deposit; repurchase agreements; reverse repurchase agreements or securities lending agreements; medium-term corporate notes; shares of beneficial interest; mortgage pass-through securities; financial futures and financial option contracts; and deposits with the LAIF. Investments in LAIF are unregistered, pooled funds. LAIF is a component of the Pooled Money Investment Account Portfolio managed by the State Treasurer, in accordance with Government Code Sections 16430 and 16480. The fair value of the District's investments in LAIF approximates the value of its pool shares.

The District's investment policy includes restrictions for investments relating to maximum amounts invested as a percentage of total portfolio and with a single issuer, maximum maturities and minimum credit ratings.

Deposits in each local and area bank are insured by the FDIC in the amount of $250 for time and savings accounts (including NOW accounts), $250 for interest bearing demand deposit accounts (interest bearing and noninterest bearing). In addition, if deposits are held in an institution outside of the state in which the government is located, insured amounts are further limited to a total of $250 for the combined amount of all deposit accounts.

The District maintains a rate stabilization fund to protect District customers from extreme rate increases that would otherwise be necessitated by dramatic short-term changes in purchased power or other operating costs. Annual transfers into and out of the fund are determined by the District's Board of Directors (Board), which may utilize these unrestricted funds for any lawful purposes. The rate stabilization fund consists of an undivided portion of the District's general operating funds. No transfers occurred during fiscal years 2023 and 2022.

The Plan's investment policies are governed primarily by the "Prudent Person Rule" which restricts the Plan's investments to only those securities which would be selected by a person of prudence, diligence and intelligence in the management of his or her own affairs, giving due consideration to safety or principal and income. The Plan, under the guidelines of its investment policies, is authorized to invest its cash in various financial instruments, including cash and equivalents, domestic equities, international equities, convertible securities, bankers acceptances, commercial paper, certificates of deposit, repurchase and reverse repurchase agreements, financial futures, financial option contracts, medium term notes, corporate bonds, shares issued by diversified management companies, hedge funds and deposits with the LAIF.

(In Thousands)

The Plan's investment policy and guidelines are established by and may be amended by the District's Retirement Committee (the Committee) and the District's Board of Directors. The Committee is responsible for overseeing the investment management of the Plan. This includes, but is not limited to, reviewing and evaluating investment activities regularly to assure that the Plan's investment policy and guidelines are followed.

The Plan's investment policy includes restrictions for investments related to maximum amounts invested as a percentage of total portfolios, with a single issuer, and within market sectors and styles, minimum market capitalization, maximum maturities and minimum credit ratings.

District Cash and Investments (Exclusive of the Fiduciary Activities)

The following disclosures relate to the District, exclusive of the fiduciary activities.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset (liability). Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The valuation methods for recurring fair value measurements include the following:

- Institutional bond quotes for U.S. government agency securities, corporate medium term notes and U.S. Treasury notes.
- Trader-entered price information for money market mutual funds.
- JJ Kenny municipal information for municipal bonds.
- Bloomberg pricing of similar assets for its interest rate swap.
- Market information from NYMEX for its natural gas swaps and futures.

The following table sets forth by level, within the fair value hierarchy, the District's assets at fair value as of December 31, 2023 and 2022:

	December 31, 2023			
Investment Type	**Level 1**	**Level 2**	**Level 3**	**Total**
U.S. government agencies	$ -	$ 17,742	$ -	$ 17,742
U.S. Treasury notes	60,473	-	-	60,473
Money market funds	126,402	-	-	126,402
Corporate medium terms notes	-	25,483	-	25,483
Derivative financial instruments	(295)	(8,253)	-	(8,548)
Total	$ 186,580	$ 34,972	$ -	$ 221,552

(In Thousands)

	December 31, 2022			
Investment Type	**Level 1**	**Level 2**	**Level 3**	**Total**
U.S. government agencies	$ -	$ 22,500	$ -	$ 22,500
U.S. Treasury notes	69,301	-	-	69,301
Money market funds	32,774	-	-	32,774
Corporate medium terms notes	-	27,640	-	27,640
Municipal bonds	-	1,834	-	1,834
Derivative financial instruments	2,135	(8,602)	-	(6,467)
Total	$ 104,210	$ 43,372	$ -	$ 147,582

Custodial Credit Risk

Deposits

Custodial credit risk is the risk that in the event of a financial institution failure, the District's deposits may not be returned to the District.

As of December 31, 2023 and 2022, none of the District's bank balances are known to be individually exposed to custodial credit risk.

The District's investment policy does not address this risk.

Investments

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

As of December 31, 2023 and 2022, the District's investments were exposed to custodial credit risk as follows:

	2023	**2022**
Neither insured nor registered and held by the counterparty's trust department or agency in the District's name:		
U.S. agencies implicitly guaranteed	$ 17,742	$ 22,500
Corporate medium term notes	25,483	27,640
Municipal bonds	-	1,834
U.S. Treasury	60,473	69,301
Total	$ 103,698	$ 121,275

The District's investment policy addresses this risk. All securities owned by the District shall be held in safekeeping by a third-party custodian, acting as agent for the District under the terms of a custody agreement.

(In Thousands)

Credit Risk

Credit risk is the risk an issuer or other counterparty to an investment will not fulfill its obligations.

As of December 31, 2023 and 2022, the District's investments were rated as follows:

Investment Type	Standard & Poors 2023	Standard & Poors 2022
LAIF	NR	NR
Money market mutual funds	NR	NR
U.S. agencies implicitly guaranteed	AA+	AA+
Corporate medium term notes	AAA - A-	AAA - A-
Investment agreement contracts	NR	NR
Municipal bonds	N/A	AA-

The District's investment policy addresses this risk. The District limits investments to those allowed by Sections 53601 of the California Government code that address the risk allowable for each investment.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer.

At December 31, 2023 and 2022, the District's investment portfolio was concentrated as follows:

Investment Type	Percentage of Portfolio 2023	Percentage of Portfolio 2022
Fannie Mae	4%	7%
Freddie Mac	3%	5%

The District's investment policy addresses this risk and places limits on the amounts invested in specific types of investments.

Interest Rate Risk

Interest rate risk is the risk changes in interest rates will adversely affect the fair value of an investment.

(In Thousands)

As of December 31, 2023, the District's investments exposed to interest rate risk were as follows:

		Investment Maturities in Years		
Investment Type	**Fair Value**	**Less Than 1 Year**	**1-5 Years**	**Greater Than 5 Years**
U.S. government agencies	$ 17,742	$ -	$ 17,742	$ -
Corporate medium-term notes	25,483	4,736	20,747	-
LAIF	10,777	10,777	-	-
Money market fund	126,402	126,402	-	-
U.S. Treasury notes	60,473	4,476	55,997	-
Total	$ 240,877	$ 146,391	$ 94,486	$ -

As of December 31, 2022, the District's investments exposed to interest rate risk were as follows:

		Investment Maturities in Years		
Investment Type	**Fair Value**	**Less Than 1 Year**	**1-5 Years**	**Greater Than 5 Years**
U.S. government agencies	$ 22,500	$ 5,350	$ 17,150	$ -
Corporate medium-term notes	27,640	1,095	26,545	-
LAIF	2,117	2,117	-	-
Money market fund	32,774	32,774	-	-
Municipal bonds	1,834	1,834	-	-
U.S. Treasury notes	69,302	7,533	61,769	-
Total	$ 156,167	$ 50,703	$ 105,464	$ -

Though the District has restrictions as to the maturities of some of the investments, it does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increases in interest rates.

Fiduciary Activities Investments

The following disclosures relate to the District's Fiduciary Activities.

The Plans categorize its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

(In Thousands)

The valuation methods for recurring fair value measurements include the following:

Publicly traded stocks are valued at the most recent closing price reported on the market on which individual securities are traded.

Mutual funds, money market funds and exchange traded funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The level 2 and level 3 mutual funds are valued based on a manual method using pricing provided by various sources such as the issuer, investment manager, fund accountant, etc. or default price if a price is not provided.

U.S. agency securities, U.S. treasuries and corporate bonds are valued using institutional bond quotes.

Stable Value Fund is a collective fund that seeks to maintain a stable net asset value. It invests primarily in a diversified portfolio of fixed income securities from U.S. and foreign issuers, including corporate, mortgage-backed, and government, and agency bonds.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023 and 2022:

	2023			
Investment Type	**Level 1**	**Level 2**	**Level 3**	**Total**
Money market funds	$ -	$ 12,522	$ -	$ 12,522
Publicly traded stocks	229,042	-	-	229,042
Exchange traded funds	151,556	-	-	151,556
Corporate bonds	-	1,045	-	1,045
Mutual funds	126,268	134,308	-	260,576
U.S. agency securities	-	35	-	35
U.S. treasuries	-	8,166	-	8,166
Total	$ 506,866	$ 156,076	$ -	662,942
Investments measured at the net asset value:				
Stable Value Fund				23,175
Total investments				$ 686,117

(In Thousands)

	2022			
Investment Type	**Level 1**	**Level 2**	**Level 3**	**Total**
Money market funds	$ -	$ 7,886	$ -	$ 7,886
Publicly traded stocks	204,135	-	-	204,135
Exchange traded funds	116,785	29,068	-	145,853
Corporate bonds	-	4,912	-	4,912
Mutual funds	114,099	98,618	-	212,717
U.S. agency securities	-	6,048	-	6,048
U.S. treasuries	-	2,623	-	2,623
Total	$ 435,019	$ 149,155	$ -	584,174
Investments measured at the net asset value:				
Stable Value Fund				25,513
Total investments				$ 609,687

Investments Measured Using NAV*:* These funds have no unfunded commitments, the redemption frequency is daily - bi-annually and the redemption notice period ranges from 0 - 92 days.

Custodial Credit Risk

This is the risk that in the event of the failure of a depository financial institution or counterparty to a transaction, the Plan's deposits may not be returned or the Plan will not be able to recover the value of its deposits, investments or collateral securities that are in the possession of another party. The Plan's investment policy does not address this risk.

As of December 31, 2023 and 2022, none of the Basic, Supplemental or Retiree Medical Plan's deposits are known to be individually exposed to custodial credit risk.

As of December 31, 2023 and 2022, the Basic and Retiree Medical Plan's investments were exposed to custodial credit risk as follows:

	2023	**2022**
Neither insured nor registered and held by the counterparty's trust department or agency in the District's name:		
Publicly traded stocks	$ 229,042	$ 204,135
Corporate bonds	1,045	4,912
U.S. treasuries	8,166	2,623
U.S. agency securities	35	6,048
Total	$ 238,288	$ 217,718

The Supplemental Retirement Plan's investments were not exposed to custodial credit risk in 2023 and 2022.

The Plan's investment policy does not address this risk.

(In Thousands)

Credit Risk

As of December 31, 2023 and 2022, the Plan's investments were rated as follows:

Investment Type	Standard & Poors 2023	Standard & Poors 2022
Money market funds	NR	NR
Corporate bonds	A+, AA-, A-, BBB+, BBB, A	A+, AA, A-, BBB+, BBB, AA+
U.S. agency securities	A-	AA+

In addition, the Plans had investments in mutual funds, bond funds rated as follows:

	2023	2022
Morning Star Rating:		
1	$ -	$ 2,714
2	-	7,513
3	108,124	74,660
4	87,465	94,480
5	52,758	35,031
Not Rated	12,228	-

To mitigate the risk that an issuer of an investment will not fulfill its obligation to the owner of the investment, the Plan limits investments in certain securities to those that met or exceed certain minimum credit ratings established by nationally recognized rating agencies. Commercial paper must be rated at a minimum of A-1 and P-1 by Standard & Poor's and Moody's, respectively. Bankers' acceptances and certificates of deposit must have been purchased from larger well-capitalized banks with a minimum of an A rating from one of the major rating agencies. Banker's acceptances must also be eligible for both purchases and discount by the Federal Reserve Bank. The pooled fund investments with LAIF are not rated. Noninvestment Grade securities may be purchased up to a maximum of 20% of the portfolio value.

Interest Rate Risk

As of December 31, 2023, the Plan's investments exposed to interest rate risk were as follows:

		Investment Maturities in Years		
Investment Type	Fair Value	0-5 Years	6-10 Years	Greater Than 10 Years
Corporate bonds	$ 1,045	$ 566	$ 479	$ -
U.S. treasuries	8,166	2,740	3,642	1,784
U.S. agency securities	35	-	35	-
Stable Value Fund	23,175	23,175	-	-
Mutual funds	260,576	260,576	-	-
Total	$ 292,997	$ 287,057	$ 4,156	$ 1,784

(In Thousands)

As of December 31, 2022, the Plan's investments exposed to interest rate risk were as follows:

		Investment Maturities in Years		
Investment Type	**Fair Value**	**0-5 Years**	**6-10 Years**	**Greater Than 10 Years**
Corporate bonds	$ 4,913	$ 825	$ 3,814	$ 274
Exchange traded funds*	18,453	18,453	-	-
U.S. treasuries	2,623	214	262	2,147
U.S. agency securities	6,048	-	-	6,048
Stable Value Fund	25,513	25,513	-	-
Mutual funds	214,948	214,948	-	-
Total	$ 272,498	$ 259,953	$ 4,076	$ 8,469

*Only includes exchange traded funds including bond funds.

The Plan has restrictions as to the maturities of some of the investments and has a formal policy that allocates investments to manage its exposure to fair value losses arising from increases in interest rates.

4. Restricted Assets

Certain proceeds of the District's debt, as well as certain resources set aside for their repayment, are classified as restricted assets on the statements of net position because their use is limited. The following accounts are reported as restricted assets

	2023	**2022**
Restricted accounts:		
Project Fund	$ 91,480	$ 22
Reserve Fund	45,651	41,677
Redemption Fund	4,424	6,537
Domestic Water and Reserve Contingency fund	997	980
Net pension asset	-	1,104
Total restricted accounts	$ 142,552	$ 50,320

Debt Related Accounts

Redemption - Used to segregate resources accumulated for debt service payments over the next 12 months.

Reserve - Used to report resources set aside to make up potential future deficiencies in the redemption account.

Project - Used to report debt proceeds restricted for use in construction.

Domestic Water Reserve and Contingency

As a condition of the Treatment and Delivery Agreement with the City of Modesto for domestic water, the District has established an account for the payment of emergency maintenance items that arise.

(In Thousands)

Remediation Fund

As a condition of the Natural Gas and Supply Agreement with the M-S-R Energy Authority, the District has established a fund to track proceeds received from the sale of gas delivered per the supply agreement. These proceeds will be used for future gas supply needs. There was no balance in this account as of December 31, 2023 and 2022.

Net Pension Asset

Restricted assets have been reported in connection with the net pension asset balance since this balance must be used to fund employee benefits.

5. Changes in Capital Assets

A summary of changes in capital assets for 2023 follows:

	Balance January 1, 2023	Increases	Decreases	Balance December 31, 2023
Capital assets, not being depreciated/amortized:				
Land and land rights	$ 35,002	$ -	$ -	$ 35,002
Intangibles assets, not being depreciated/amortized	5,367	-	-	5,367
Total capital assets not being depreciated/ amortized	40,369	-	-	40,369
Capital assets being depreciated/amortized:				
Intangible assets, being depreciated/amortized	45,267	-	-	45,267
Subscription assets	4,813	503	-	5,316

General and administrative facilities	91,884	4,882	(1,036)	95,730
Completed construction not classified	-	35,624	-	35,624
Total capital assets being depreciated/ amortized	1,440,530	61,179	(12,670)	1,489,039
Total capital assets	1,480,899	61,179	(12,670)	1,529,408

(In Thousands)

	Balance January 1, 2023	Increases	Decreases	Balance December 31, 2023
Less accumulated depreciation/amortization	$ (853,951)	$ (41,386)	$ 11,622	$ (883,715)
Less accumulated amortization, subscription assets	(688)	(822)	-	(1,510)
Construction in progress	68,310	61,746	(60,003)	70,053
Net capital assets	$ 694,570	$ 80,717	$ (61,051)	$ 714,236

A summary of changes in capital assets for 2022 follows:

	Balance January 1, 2022 (restated)	Increases	Decreases	Balance December 31, 2022
Capital assets, not being depreciated/amortized:				
Land and land rights	$ 35,002	$ -	$ -	$ 35,002
Intangibles assets, not being depreciated/amortized	5,367	-	-	5,367
Total capital assets not being depreciated/ amortized	40,369	-	-	40,369
Capital assets being depreciated/amortized:				
Intangible assets, being depreciated/amortized	45,267	-	-	45,267
Subscription assets	4,813	-	-	4,813
Electric system	965,228	45,939	(605)	1,010,562
Domestic water plant	217,914	259	(63)	218,110
Irrigation system	68,330	1,960	(396)	69,894
General and administrative facilities	85,457	7,272	(845)	91,884
Completed construction not classified	26,708	(26,708)	-	-
Total capital assets being depreciated/ amortized	1,413,717	28,722	(1,909)	1,440,530
Total capital assets	1,454,086	28,722	(1,909)	1,480,899

(In Thousands)

	Balance January 1, 2022 (restated)	Increases	Decreases	Balance December 31, 2022
Less accumulated depreciation/amortization	$ (811,305)	$ (44,504)	$ 1,858	$ (853,951)
Less accumulated amortization, subscription assets	-	(688)	-	(688)
Construction in progress	53,785	42,742	(28,217)	68,310
Net capital assets	$ 696,566	$ 26,272	$ (28,268)	$ 694,570

6. Leases

The District has the following lessor agreements:

Date	Lease Receivable Description	Final Maturity	Interest Rate	Outstanding Receivable 2023	Outstanding Receivable 2022
2005, 2016, 2021	Various ground and tower leases	2029 – 2036	5.00%	$ 1,873	$ 2,008
4/8/14	Fiber optic cable	9/30/24	5.00%	898	1,020
11/18/22	Land lease	12/31/27	4.50%	9,416	11,403
	Total			$ 12,187	$ 14,431

The District recognized $2,243 and $244 of lease revenue in 2023 and 2022, respectively. The District recognized $661 and $161 of interest revenue in 2023 and 2022, respectively.

7. Investment in Public Power Agencies

The District's investments in public power agencies are accounted for using the equity method of accounting and consist of the following at December 31, 2023 and 2022:

	2023	2022
M-S-R Public Power Agency	$ 20,465	$ 19,637
Transmission Agency of Northern California (TANC)	$ 20,823	$ 17,409

(In Thousands)

M-S-R Public Power Agency

The District, the City of Santa Clara and the City of Redding formed M-S-R Public Power Agency (Agency) for the principal purpose of acquiring electric power resources for the electric systems of its members. The District owns a 50% interest in generation assets owned by the Agency. The District is liable for its proportionate share of the Agency's long-term debt and asset retirement obligations related to the San Juan Project. The Agency divested its interest in the San Juan Plant, a 507-megawatt (MW) unit of a coal-fired electricity generating plant located in New Mexico, as of December 31, 2017. In 2006, the Agency entered into agreements with Iberdrola Renewables, Inc., to purchase renewable energy from the Big Horn wind project. The District's share of the Big Horn output is 12.5% and is obligated to make payments commensurate with its share of the project.

During 2023 and 2022, the District incurred purchased power costs of $13,158 and $22,523, respectively, in connection with these Agency resources. At December 31, 2023 and 2022, the District had a payable of $1,745 and $1,836, respectively, to the Agency for its proportionate share of project related expenditures.

Summarized financial information of the Agency is as follows at December 31:

	2023	2022
Total assets	$ 62,466	$ 63,727
Total deferred outflows of resources	-	-
Total assets and deferred outflows	$ 62,466	$ 63,727
Total liabilities	$ 21,539	$ 24,456
Total net position	40,927	39,271
Total liabilities and net position	$ 62,466	$ 63,727
Changes in net position during the year	$ 1,656	$ 16,689

The long-term debt of the Agency was paid off in 2022. The District's portion of the Agency's principal and interest payments during 2022 were $13,737.

M-S-R Energy Authority

The District, the City of Santa Clara and the City of Redding formed M-S-R Energy Authority (Authority) for the principal purpose to acquire, construct, maintain, operate and finance projects for the benefit of any one or more of the Members. On September 10, 2009, the Authority entered into a series of 30-year prepaid gas contracts with Citigroup Energy, Inc., which are financed by nonrecourse revenue bonds. The Authority also entered into matching Natural Gas Supply Agreements (Supply Agreements) whereby each member is obligated to purchase the natural gas from the Authority at a discount from the Index Price. The Supply Agreements will continue in effect until September 30, 2039, unless terminated earlier due to certain defaults, as set forth therein, or the termination of the matching prepaid gas contract. If the Authority fails on any day to deliver the quantity of natural gas required to be delivered pursuant to a Supply Agreement, the member will have no obligation for any of the natural gas supply that was not delivered as a result of such delivery default.

(In Thousands)

Billings to the members are designed to provide, over the life of the project, full recovery of costs as defined by the indenture and project contracts, and as prescribed by the Authority. Rates are structured to systematically provide for the current debt service requirements, operating costs and reserves. The net costs to be recovered from future participant billings consist primarily of timing differences related to the debt service requirements included in rates. In accordance with GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements,* certain income and expense amounts which would be recognized during the current time period are deferred and not included in the determination of income until such costs are recoverable through participant billings. Under the current rate structure, costs are expected to be recovered over the 30-year term of the Natural Gas Supply Agreement.

During 2023 and 2022, the District incurred purchased gas costs of $14,700 and $14,654, respectively, in connection with the Authority. At December 31, 2023 and 2022, the District had a payable of $1,040 and $2,477, respectively, for purchased gas and project related expenses.

Summarized financial information of the Authority is as follows at December 31:

	2023	2022
Total assets	$ 872,961	$ 888,204
Total liabilities	$ 872,961	$ 888,204
Total net position	-	-
Total liabilities and net position	$ 872,961	$ 888,204
Changes in net position during the year	$ -	$ -

The long-term debt of the Authority totaled $868,935 and $881,000 at December 31, 2023 and 2022, respectively. The District's portion of the Authority's principal and interest payments during 2023 and 2022 were $15,621 and $15,357, respectively.

Transmission Agency of Northern California (TANC)

TANC is a joint power agency that owns a portion of the California Oregon Transmission Project (COTP), a transmission line between central California and southern Oregon. As of July 1, 2015, through a 25-year lay-off agreement and the termination of a layoff between MID and some of the other TANC members, the District has a 23.5% ownership interest in TANC for a net total scheduling entitlement of 320 MW. As a result of the 2015 25-year lay-off agreement, the District assumed the debt payment associated with the acquisition of approximately 25 MW of additional COTP transfer capability. TANC is entitled to approximately 87% of the 1,600 MW transmission capacity of the COTP. In addition, the District has a 34% share of TANC's transmission entitlement under the South of Tesla transmission agreements with Pacific Gas & Electric Company (PG&E) that provides the District with 102 MW of transmission between Tesla and Midway.

(In Thousands)

The District is responsible for 34% of the South of Tesla operating costs. In July 2006, TANC changed the method used to invoice members for transmission costs. TANC began invoicing its members at the monthly TANC Open Access Transmission Tariff (OATT) rate. The OATT rate is charged to the member based on their entitlement share of kWs. During 2023 and 2022, the District incurred transmission costs of $14,855 and $14,120, respectively, relating to these projects, which are included in purchased power expense in the accompanying statements of revenues, expenses and changes in net position. At December 31, 2023 and 2022, the District has a receivable from TANC in the amount of $20,790 and $20,983, respectively, included in other long-term assets in the accompanying statements of net position. In 2006, the District began selling excess transmission capabilities from the COTP transmission lines through TANC, as agent of the District. The District recognized $405 and $1,060 in revenues from transmission sales in the 2023 and 2022, respectively.

Summarized unaudited financial information of TANC is as follows at December 31:

	2023	2022
Total assets and deferred outflows of resources	$ 402,471	$ 389,364
Total liabilities and deferred inflows of resources	$ 308,156	$ 310,286
Total net position	94,315	79,078
Total liabilities and net position	$ 402,471	$ 389,364
Changes in net position for six months ended	$ 14	$ 7

The long-term debt of TANC (unaudited), which totals $183,442 and $187,860 at December 31, 2023 and 2022, respectively, is collateralized by a pledge and assignment of net revenues of each agency, supported by take-and-pay commitments of the District and the other members. Should other members of these agencies default on their obligations to the agencies, the District would be required to make "step up" payments to cover a portion of the defaulted payments. The District's portion of TANC's principal and interest payments during the year were $2,476 and $2,465 for December 31, 2023 and 2022, respectively.

Balancing Authority of Northern California (BANC)

The District and three other California municipal utilities formed BANC in 2009. One new member joined in 2013. BANC was formed to perform North American Electric Reliability Corporation (NERC) functions that would otherwise be performed by the BANC members or on their behalf.

(In Thousands)

Summarized financial information of BANC is as follows at December 31:

	2023	2022
Total assets	$ 8,093	$ 15,028
Total liabilities	$ 8,093	$ 15,028
Total net position	-	-
Total liabilities and net position	$ 8,093	$ 15,028
Changes in net position during the year	$ -	$ -

Modesto Irrigation District Financing Authority

The Authority is a joint power authority that provides financing for public improvements of the District and is accounted for as a component unit of the District. The revenues and expenses of the Authority are eliminated upon consolidation with the District. The Authority's summary financial information as of December 31, 2023 and 2022 and for the years then ended is as follows:

	2023	2022
Assets:		
Current assets	$ 28,732	$ 16,503
Other noncurrent assets	122,800	25,615
Debt service installment receivable, less current portion	367,337	299,408
Total assets	518,869	341,526

Cash and cash equivalents, ending	$ 118,121	$ 21,576

8. Subscription Liabilities

The District's adopted GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*, effective January 1, 2023. The impact of the implementation did not affect net position. However, prior period balances were restated for the new standard. The following balances were restated from 2022.

	As Originally Reported (12/31/22)	Adjustment for GASB No. 96	As Restated (12/31/22)
Plant in service	$ 1,476,086	$ 4,813	$ 1,480,899
Accumulated depreciation	(853,951)	(688)	(854,639)
Current portion of subscription liability	-	725	725
Subscription liability	-	3,401	3,401

(In Thousands)

The District has the following subscription liabilities:

Date	Description	Final Maturity	Interest Rate	Original Amount	Outstanding Amount December 31, 2023
9/12/18	Meter hosting services	9/11/28	5.00%	$ 2,819	$ 2,080
9/24/20	Customer service portal	9/24/24	5.00	300	105
3/11/21	Energy trading	3/31/28	5.00	1,695	1,215

Future minimum subscription payments are as follows:

	Principal	Interest	Total
Years ending December 31:			
2024	$ 768	$ 159	$ 927
2025	704	120	824
2026	746	84	830
2027	791	46	837
2028	391	8	399
Total requirements	$ 3,400	$ 417	$ 3,817

9. Long-Term Debt

The following bonds have been issued:

Date	Issue	Final Maturity	Interest Rate	Original Amount	Outstanding Amount December 31, 2023
6/26/07	2007F Domestic Water Revenue Bonds	9/1/37	Index Rate	$ 93,190	$ 88,915
6/23/10	2010A Taxable Electric System Revenue Bonds	10/1/40	4.78-7.20%	60,325	45,385
10/25/12	2012A Electric System Refunding Revenue Bonds	7/1/32	1.00-5.00	90,065	-
8/14/13	2013G Domestic Water Refunding Revenue Bonds	9/11/22	2.00-5.00	43,270	-
7/15/15	2015A Electric System Revenue Bonds	10/1/40	4.00-5.00	67,690	63,065
7/15/15	2015B Electric System Refunding Revenue Bond	10/1/34	2.00-5.00	30,190	22,840
10/1/16	2016 Electric System Refunding Revenue Bond	10/1/34	2.00-5.00	95,240	22,490
6/20/19	2019A Electric System Revenue Bonds	10/1/39	5.00	47,355	47,355
6/20/19	2019B Electric System Revenue Bonds	10/1/31	5.00	48,495	42,045
8/6/20	2020 Electric System Refunding Revenue Bonds	10/1/32	4.00-5.00	34,920	29,120
4/06/21	2021 Electric Systems Refunding Revenue Bonds	7/1/31	5.00	48,945	35,135
4/26/23	2023A Electric System Revenue Bonds	10/1/43	5.00	123,325	123,325
4/26/23	2023B Electric System Refunding Revenue Bonds	10/1/32	5.00	47,595	39,835

General Debt Terms

The net revenue of the District's electric system is pledged for repayment of Certificates of Participation (COPs) and Revenue Bonds. The Domestic Water Revenue Bonds are collateralized by a pledge of payments made by the City of Modesto relating to domestic water services. Interest on certificates and revenue bonds is generally payable semi-annually, except for interest on certain COPs that is payable on the last day of each interest rate reset period.

(In Thousands)

Interest earnings on tax-exempt bond funds are subject to arbitrage rules of the Internal Revenue Service if interest earnings on the unspent tax-exempt funds are greater than the stated bond yield on the tax-exempt debt. As of December 31, 2023 and 2022, the District has recorded a liability of $208 and $122, respectively, for a potential arbitrage rebate to the IRS. Arbitrage rebates are due five years from the issuance date of the tax-exempt debt.

The District's outstanding debt obligations of $559,510 and $477,185 on December 31, 2023 and 2022, respectively, contain event of default and remedies provisions that in the event of default, outstanding amounts become immediately due and payable. The District has evaluated the event of default and remedies provisions and in the opinion of Management, the likelihood is remote that these provisions will have a significant effect on the District's financial position or results of operations. The District is in compliance with required bond covenants.

Long-Term Debt Repayment

Revenue bonds debt service requirements to maturity follows:

	Principal	Interest	Interest Subsidy	Total
Years ending December 31:				
2024	$ 38,340	$ 27,657	$ (1,073)	$ 64,924
2025	39,560	25,698	(1,073)	64,185
2026	35,385	23,867	(1,073)	58,179
2027	28,125	22,276	(1,073)	49,328
2028	29,465	20,911	(1,073)	49,303
2029-2033	146,770	82,397	(5,339)	223,828
2034-2038	140,020	47,797	(3,388)	184,429
2039-2043	62,065	17,047	(386)	78,726
2044-2048	39,780	5,956	-	45,736
Total requirements	$ 559,510	$ 273,606	$ (14,478)	$ 818,638

Pursuant to the requirements of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, certain automatic reductions were effective March 1, 2013 for qualified bonds including the District's 2010A Series Bonds. The District received a reduced interest subsidy payment during 2023 and 2022 due to budget sequestration by the federal government. In 2023 and 2022, the District recognized $1,083 and $1,079, respectively, in revenues for its Build America Bonds, as a component of other nonoperating income, net in the statements of revenues, expenses and changes in net position. Federal subsidies for these bonds will be reduced by 5.7% through the end of the federal fiscal year ending September 30, 2030, or convening U.S. Congressional action, at which time the sequestration rate is subject to change.

Current Refunding

On April 26, 2023, bonds in the amount of $47,595 were issued with an average interest rate of 5.00% to refund $50,965 of Series 2012A Revenue Bonds with an average interest rate of 5.00%. The net proceeds were used to prepay the outstanding debt service requirements on the old bonds.

The cash flow requirements on the old bonds prior to the refunding were $59,830 from 2024 through 2033. The cash flow requirements on the new bonds are $56,026 from 2024 through 2033. The refunding resulted in an economic gain of $3,993.

(In Thousands)

Long-Term Obligation Summary

Long-term obligation activity for the year ended December 31, 2023 is as follows:

	January 1, 2023	Additions	Reductions	December 31, 2023	Due Within One Year
Domestic Water Revenue Bonds	$ 93,190	$ -	$ 4,275	$ 88,915	$ 4,455
Revenue bonds	383,995	170,920	84,320	470,595	33,885
Unamortized debt discount	(249)		(17)	(232)	-
Unamortized premium	37,444	26,572	10,687	53,329	-
Subscription liability	4,126		726	3,400	768

Derivative financial instruments	6,467	2,081	-	8,548	98
Total	$ 535,323	$ 202,004	$ 100,984	$ 636,343	$ 39,206

Long-term obligation activity for the year ended December 31, 2022 is as follows:

	January 1, 2022 (restated)	Additions	Reductions	December 31, 2022	Due Within One Year
Domestic Water Revenue Bonds	$ 98,985	$ -	$ 5,795	$ 93,190	$ 4,275
Revenue bonds	415,895	-	31,900	383,995	34,365
Unamortized debt discount	(265)	-	(16)	(249)	-
Unamortized premium	45,812	-	8,368	37,444	-
Subscription liability	4,813		687	4,126	725
Other liabilities	9,629	999	278	10,350	-
Derivative financial instruments	21,839	-	15,372	6,467	(1,627)
Total	$ 596,708	$ 999	$ 62,384	$ 535,323	$ 37,738

In addition to the liabilities above, information on the net pension liability and the net OPEB liability is provided in Note 11.

10. Derivative Instruments

Summary of Notional Amounts and Fair Values

The District enters into contracts to hedge its exposure to power and natural gas prices, and to procure energy supplies. The District also enters into contracts to hedge its exposure to fluctuating interest rates. These contracts are evaluated pursuant to GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, to determine whether they meet the definition of derivative instruments, and, if so, whether they effectively hedge the expected cash flows associated with interest rate and energy exposures.

The District applies hedge accounting for derivatives that are deemed effective hedges. Under hedge accounting, the increase (decrease) in the fair value of a hedge is reported as a deferred inflow (outflow) on the statements of net position. As of December 31, 2023 and 2022, all of the District's derivatives met the effectiveness test.

For energy derivatives, fair values are estimated by comparing contract prices to forward market prices quoted by third party market participants or provided in relevant industry publications. For interest rate derivatives, the District subscribes to a financial information service that it uses to verify fair value estimates obtained from its counterparties.

The following is a summary of the fair values and notional amounts of derivative instruments outstanding as of December 31, 2023 (amounts in thousands; gains shown as positive amounts, losses as negative).

	2023 Change in Fair Value		Fair Value, End of 2023		Notional
	Classification	Amount	Classification	Amount	(Thousands)
Cash Flow Hedges					
Interest rate derivatives:					
Pay-fixed swaps, interest rate	Deferred outflow	$ 349	Derivative	$ (8,253)	$ 88,915
Energy derivatives:					
Pay-fixed swaps, natural gas	Deferred inflow	(2,430)	Derivative	(295)	822 mmBtu

The following is a summary of the fair values and notional amounts of derivative instruments outstanding as of December 31, 2022 (amounts in thousands; gains shown as positive amounts, losses as negative).

	2022 Change in Fair Value		Fair Value, End of 2022		Notional
	Classification	Amount	Classification	Amount	(Thousands)
Cash Flow Hedges					
Interest rate derivatives:					
Pay-fixed swaps, interest rate	Deferred outflow	$ 14,815	Derivative	$ (8,602)	$ 93,190
Energy derivatives:					
Pay-fixed swaps, natural gas	Deferred inflow	557	Derivative	2,135	1,118 mmBtu

Objective and Terms of Hedging Derivative Instruments

The objectives and terms of the District's hedging derivative instruments that were outstanding at December 31, 2023 and 2022 are summarized in the table below. The table is aggregated by the credit ratings (using the Standard & Poor's scale) of the District's counterparties. For counterparties having multiple ratings, the rating indicating the greatest degree of risk is used.

The interest rate swaps are designed to synthetically fix the cash flows associated with variable rate bonds. The interest rate that the District pays on the 2007F bonds is 67% of LIBOR plus a spread. With the interest rate swaps, the District pays the counterparty a fixed rate and receives 67% of LIBOR. Netting out the LIBOR-based payments, the District's effective interest rate is the sum of the fixed rate paid to the swap counterparty and the spread.

(In Thousands)

The District hedges its power and natural gas costs so that it can offer predictable rates to its retail electric customers, stabilize its finances and enhance its credit profile. The District maintains a Risk Management Program (RMP) to control the price, credit and operational risks arising from its power and natural gas market activities. Under the RMP, authorized District personnel assemble a portfolio of swaps, options, futures and forward contracts over time with the goal of making the District's purchased power and fuel budget more predictable.

Type	Objective	Notional (Thousands)	Effective Date	Maturity Date	Terms	Counterparty Rating
Pay-fixed swaps, interest rate	Hedge cash flows on the 2007F Bonds	$ 88,915	Jun-07	Sep-37	Pay 4.378-4.440%; receive 67% of LIBOR	A-
Pay-fixed swaps, natural gas	Hedge cash flows on PG&E Citygate gas purchases	822 mmBtu	May-22	Dec-26	Pay $5.15-5.58/mmBtu; receive NGI PG&E Citygage price	Between BBB+ to A-

Objectives and terms of the District's hedging derivative instruments that were outstanding at December 31, 2022 are summarized in the table below:

Type	Objective	Notional (Thousands)	Effective Date	Maturity Date	Terms	Counterparty Rating
Pay-fixed swaps, interest rate	Hedge cash flows on the 2007F Bonds	$ 93,190	Jun-07	Sep-37	Pay 4.378-4.440%; receive 67% of LIBOR	A-
Pay-fixed swaps, natural gas	Hedge cash flows on PG&E Citygate gas purchases	1,096 mmBtu	Oct-20	Dec-25	Pay $3.235-5.51/mmBtu; receive NGI PG&E Citygage price	Between A- to BBB

Risks of Derivative Instruments

Credit Risk

Credit risk is the risk of loss due to a counterparty defaulting on its obligations. The District seeks to minimize credit risk by transacting with creditworthy counterparties. Interest rate swap counterparties are evaluated at the time of transaction execution. For energy counterparties, the District follows a procedure under its RMP wherein the District will accept more potential credit risk from counterparties having greater amounts of tangible net worth and higher credit ratings. The procedure restricts the District from executing energy hedge transactions with counterparties rated lower than BBB by Standard & Poor's or Fitch rating services, or Baa2 by Moody's.

The District uses industry standard agreements to document derivative transactions. These agreements include netting clauses whereby, if the District and the counterparty owe each other payment, the party owing the greater amount pays the net. The District also uses collateral posting provisions to manage credit risk. These provisions require an out-of-the-money party to post cash, letters of credit or other pre-agreed liquid securities to the extent that the mark-to-market value of derivative positions with a given counterparty exceeds a threshold value. Thresholds are negotiated individually with counterparties, and the netting provisions include rights to set off against posted collateral.

To avoid concentrations of credit risk, and to avoid the risk of itself having to post large amounts of collateral, the District seeks to spread transactions across counterparties so that, even with an adverse move in the market, the threshold values would likely not be exceeded. As of December 31, 2023 and 2022, the District did not have any collateral posted with its derivative counterparties and did not hold any collateral posted by its counterparties.

The District is exposed to credit risk to the extent that it has net fair value gains on its derivative positions with individual counterparties. If counterparty failed, those value amounts could be lost. As of December 31, 2023 and 2022, the District was in-the-money with certain of its counterparties.

Termination Risk

Termination risk is the risk that a derivative will terminate prior to its scheduled maturity due to a contractual event. Contractual events include bankruptcy, illegality, default and mergers in which the successor entity does not meet credit criteria. One aspect of termination risk is that the District would lose the hedging benefit of a derivative that becomes subject to a termination event. Another aspect of termination risk is that, if at the time of termination the mark-to-market value of the derivative was a liability to the District, the District could be required to pay that amount to the counterparty. Termination risk is associated with all of the District's derivatives up to the fair value amounts.

(In Thousands)

Hedged Debt

Net cash flows for the District's synthetic fixed-rate debt are shown below. These amounts assume that the interest rates of the bonds and the reference rates of the hedging derivative instruments remain at December 31, 2023 levels. These rates will vary and, as they do, interest payments on the variable-rate bonds and net receipts/payments on the interest rate swaps will vary. The table shows only the District's effectively hedged synthetic fixed-rate debt, which is a subset of the District's total debt. As of December 31, 2023, all of the District's variable-rate debt is effectively hedged.

	Principal	Interest	Net Payment on Derivatives	Total
Years ending December 31:				
2024	$ 4,455	$ 3,349	$ 539	$ 8,343
2025	4,650	3,179	511	8,340
2026	4,885	3,001	483	8,369
2027	5,105	2,814	453	8,372
2028	5,340	2,619	422	8,381
2029-2033	30,605	9,803	1,579	41,987
2034-2037	33,875	3,200	515	37,590
Total	$ 88,915	$ 27,965	$ 4,502	$ 121,382

11. Employee Benefit Plans

The District maintains two retirement plans and a retiree medical benefits plan for its eligible employees. The Retirement Committee of the District's Board of Directors oversees the plans. The District has a Human Resources Department that performs plan administrative functions. Plan investments are managed by the District Treasury Department and third-party investment managers. All funds of the plans are separate assets of the retirement plans and are not assets of the District.

Basic Retirement Plan

Plan Description

The Basic Retirement Plan (the Plan) is a single-employer defined benefit pension plan for eligible employees. All employees who normally work 20 hours per week or more and at least five months per year, except leased employees, employees whose work classification is excluded from coverage under the Plan by a collective bargaining agreement, and individuals employed in work experience and student intern classifications, are eligible. There are three tiers of employees covered. Tier 1 is comprised of Pre-2006 eligible employees. Tier 2 is comprised of Post-2005 eligible employees. Tier 3 is comprised of Post-2012 eligible employees. The Plan provides retirement, disability and death benefits to plan members and beneficiaries. The District issues publicly available stand-alone financial statements and required supplementary information of the Plan that may be obtained by contacting the District. The fiduciary net position reported in these statements has been determined on the same basis as the Plan.

(In Thousands)

Benefits Provided

Benefits provided for Tier 1 and 2 employees include monthly benefits of 2.75% of the final average monthly earnings multiplied by a credited service factor. Tier 3 employees receive a monthly benefit equal to a percentage between 1% if retirement occurs at age 52 and 2.5% if retirement occurs at age 67 or older multiplied by a credited service factor. For ages 52 through 67, the percentage is between 1% and 2.5%. Vesting periods are five years for all tiers. Normal retirement age is 60 for Tier 1 and 2 employees with reduced early retirement options at 55 with five years of service. Tier 3 employees may retire at age 52, but cost of living adjustments are only given to employees that retire on or after age 55 with 5 years of service. Final average compensation is calculated based on the highest average monthly earnings during the 36 consecutive months out of the last 120 months for Tier 1 and Tier 2 employees. Tier 3 employee benefits are calculated as the highest average monthly earnings received during the 36 consecutive month's immediately preceding separation of service. Cost of living adjustments are provided for all employees who have been receiving benefits for more than one year excepted as noted above. The cost of living adjustment is based on the increase in the U.S. Labor Department cost of living index, but it may not exceed 4%. For post-2005 eligible employees, such adjustment shall not exceed 3%. Tier 3 employees that leave the District's service may withdraw his or her contribution if they are not yet vested. Benefit terms may be amended by the Board of Directors.

Employees Covered by Benefit Terms

At the December 31, 2023 and 2022 valuation dates, the following employees were covered by the benefit terms:

	2022	2021
Inactive employees or beneficiaries currently receiving benefits	513	501
Inactive employees entitled to but not yet receiving benefits	71	60
Active employees	431	419
Total	1,015	980

Contributions

The Board of Directors has established, and may amend, the contribution requirements for Plan members and the District set forth in the terms of the Plan. The terms of the Plan empower the Retirement Committee of the District (the Committee) to make, at reasonable intervals, an analysis of the funding requirements of the Plan for the payment of retirement benefits and expenses based on reasonable actuarial assumptions and methods which take into account the experience of the Plan and the reasonable expectations, and on the basis of this analysis, to establish a funding policy for the Plan. The terms of the Plan state that, subject to the Board of Directors' right to suspend or reduce contributions to the Plan at any time, the District shall contribute to the Plan at least once a year the amounts necessary to maintain the Plan on a sound actuarial basis, in a manner consistent with the funding policy established by the Committee.

(In Thousands)

The funding policy currently established by the Committee requires the District to contribute an amount set forth in the Recommendation Regarding Total Contributions presented in the Plan actuary's Actuarial report. The Required Annual Contributions set forth in the Recommendation regarding total contributions presented in the Actuarial Report are $20,606 and $17,336, which were contributed in 2023 and 2022, respectively.

The District was the sole participating employer and contributing entity. Prior to 1989, participants were allowed to make voluntary contributions and prior to 1977, participating contributions were required. The Plan was amended as of January 1, 2013; new member employees are required to contribute an amount equal to one-half of the defined benefits' normal cost through payroll deductions.

Net Pension Liability (Asset)

The employer's net pension liability (asset) was measured as of December 31, 2022 and 2021 for the District's December 31, 2023 and 2022 financial statements, respectively, and the total pension liability used to calculate the net pension liability (asset) was determined by an annual actuarial valuation as of January 1, 2023 and January 1, 2022, respectively.

Actuarial Assumptions

The total pension liability was determined using the following actuarial assumptions:

	2023	2022
Actuarial valuation date	January 1, 2023	January 1, 2022
Amortization method	20-year amortization method	20-year amortization method
Asset valuation method	Smoothed fair market value method with gains and losses recognized over five years	Smoothed fair market value method with gains and losses recognized over three years
Long-term expected rate of return	6.90%	6.90%
Discount rate	6.90%	6.90%
Inflation	2.50%	2.50%
Salary increases	4.00% per year, compounded annually	4.00% per year, compounded annually
Mortality	Pub-2010 General retirees Amount weighted mortality, with generational projection using Scale MP-2020	Pub-2010 General retirees Amount weighted mortality, with generational projection using Scale MP-2020
Post-retirement adjustments	2.40% for tier 1, 2.25% for tier 2 and 3	2.50%
Overtime assumptions	4% plus 4 to 16% of current salaries for employees who are expected to have significant increase in their final average salaries due to overtime. Overtime assumption of 0% for Post-2005 eligible employees.	4% plus 4 to 16% of current salaries for employees who are expected to have significant increase in their final average salaries due to overtime. Overtime assumption of 0% for Post-2005 eligible employees.

The Plan's investment policy does not establish long-term expected rates of return for each asset class. The target allocation for each major asset class are summarized in the following table:

Asset Class	Target Allocation
Cash	- %
Fixed income and U.S. governmental obligations	25.0
International stocks	15.0
Domestic stocks	45.0
Hedge funds	10.0
Public real estate	5.0
Opportunistic portfolio	-

Discount Rate

The discount rates of 6.90% was used to measure the total pension liability as of December 31, 2023 and 2022. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed-upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate

The following presents the Net Pension Liability (Asset) of the employer as of December 31, 2023, calculated using the discount rate of 6.90%, as well as what the employer's Net Pension Liability (Asset) would be using a discount rate that is 1-percentage-point lower (5.90%) or 1-percentage-point higher (7.90%) than the current rate.

	1% Decrease	Current Discount Rate	1% Increase
December 31, 2023	$ 169,575	$ 105,282	$ 51,770
December 31, 2022	61,637	(1,104)	(53,269)

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued Modesto Irrigation District Retirement System Basic Retirement Plan report.

Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended December 31, 2023 and 2022, the employer recognized pension expense of $29,501 and $5,305, respectively. The employer reported deferred outflows and inflows of resources related to pensions from the following sources:

	December 31, 2023	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual investment earnings	$ 55,939	$ -
Differences between expected and actual experience	5,384	3,804
Differences in assumptions	25,276	-
Contributions subsequent to the measurement date*	20,606	-
Total	$ 107,205	$ 3,804

	December 31, 2022	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual investment earnings	$ -	$ 49,884
Differences between expected and actual experience	7,869	5,072
Differences in assumptions	35,661	-
Contributions subsequent to the measurement date*	17,336	-
Total	$ 60,866	$ 54,956

* The amount reported as deferred outflows of resources resulting from contributions subsequent to the measurement date is recognized as a reduction in the net pension liability in the subsequent year.

(In Thousands)

Amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Years ending December 31:		
2024	$	15,230
2025		20,709
2026		22,355
2027		24,501
2028		-

Payable to the Pension Plan

At December 31, 2023 and 2022, the employer did not have a payable for any outstanding amount of contributions to the pension plan required.

The 2023 and 2022 required contributions were determined as part of the January 1, 2023 and January 1, 2022 actuarial valuations, respectively, using the entry age normal cost method. This method seeks to provide a level pattern of cost as a percentage of salary throughout an employee's working lifetime. A level percentage of payroll amortization is used, with an amortization period not to exceed 30 years.

Supplemental Retirement Plan

Eligible employees of the District also participate in the District's supplemental retirement plan (the Supplemental Plan). The Supplemental Plan is a defined contribution plan and serves as partial or full replacement of social security for participants, depending upon date of employment. Participants are required to contribute 5% of their compensation on a pre-tax basis. The District wholly matches the contributions. Participants become fully vested in the District's portion of their account after six months of employment. Covered payroll of Participants is the same as under the Basic Retirement Plan. Participants have a selection of investment options offered under the Plan. The District made contributions to the Supplemental Plan of $2,771 and $2,455 for 2023 and 2022, respectively. The District issues publicly available stand-alone financial statements and required supplementary information of the Plan that may be obtained by contacting the District.

Deferred Compensation Plan

The Modesto Irrigation District (the District) Deferred Compensation Plan (the Plan) was established effective as of January 1, 1980 to provide retirement income and other deferred benefits to the Employees of the District and their Beneficiaries. The District intends to maintain the Plan as an eligible deferred compensation plan within the meaning of section 457(b) of the Internal Revenue Code. The Plan is established and shall be maintained for the exclusive benefit of Participants and their Beneficiaries. The District does not provide contributions to the Plan. The Plan is participant-directed and available to all District employees, which permits them to defer a portion of their salary until future years. Plan participants are ultimately responsible for their investment decisions, therefore the Retirement Committee intends to provide a broad spectrum of investment options to allow plan participants to construct diversified portfolios designed to meet their own time horizons and risk and return objectives ranging from conservative (with an emphasis on capital preservation) to aggressive (with an emphasis on higher long-term growth potential). The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. All assets of the Plan shall be held and invested in the Trust Fund in accordance with the Plan and the Trust Agreement. The Plan is managed by a third-party administrator. Plan assets were $50,952 and $45,898 at December 31, 2023 and 2022, respectively.

(In Thousands)

Health Care Benefits

Plan Description

The Retiree Medical Program is a single-employer defined benefit healthcare plan. The District provides health care benefits, in accordance with District policy, to qualified retirees and their spouses. The qualification requirements for these benefits are similar to those under the District's retirement plans. The following description of the District Retiree Medical Program (Retiree Medical Plan) provides only general information. Participants should refer to the Retiree Medical Plan agreement for a more complete description of the Retiree Medical Plan's provisions.

The Retiree Medical Plan is governed by ten committee members. The ten member committee consist of: two District Board of Directors, the General Manager of the District, an employee who serves as chief financial officer of the District, an employee who serves as chief human resources manager of the District, the general counsel of the District, an employee employed in the Utility Services and Maintenance bargaining unit, an employee employed in the Administrative, Technical and Clerical bargaining unit, an employee employed in the Professional and Supervisory bargaining unit, and an employee employed in the Modesto Irrigation District Employees Association bargaining unit.

Plan provisions and contribution requirements were established by and may be amended by the District's Board of Directors.

The financial information for the Retiree Medical Plan is reported in the fiduciary funds statements. The Retiree Medical Plan does not issue stand-alone financial statements. A summary of the plan's financial statements for the years ended December 31, 2023 and 2022 is presented in the following tables.

Modesto Irrigation District Retiree Medical Plan
Net Position Restricted for Other Postemployment Benefits

	2023	2022
Assets:		
Cash and cash equivalents	$ 2,688	$ 1,537
Investments at fair value	92,450	78,943
Total assets	95,138	80,480
Less accrued liabilities	30	63
Net position held in trust for other postemployment benefits	$ 95,108	$ 80,417

(In Thousands)

	2023	2022
Additions:		
Contributions	$ 10,488	$ 10,493
Investments income/(loss)	12,516	(16,645)
Total additions	23,004	(6,152)
Deductions:		
Benefit payments	8,282	8,500
Administrative expenses	31	28
Total deductions	8,313	8,528
Increase (decrease) in net position	14,691	(14,680)
Net position held in trust for other postemployment benefits - beginning	80,417	95,097
Net position held in trust for other postemployment benefits - ending	$ 95,108	$ 80,417

Plan Membership

At the December 31, 2022 and 2021 valuation dates, the following employees were covered by the benefit terms:

	2022	2021
Inactive plan members or beneficiaries currently receiving benefit payments	416	416
Inactive plan members entitled to but not yet receiving benefit payments	-	-
Active and disabled plan members	407	407
Total	823	823

Benefits Provided

The District contributes the full cost of coverage for employees who retired before 1992; employees who retire in 1992 and thereafter pay a portion of the monthly premium for eligible dependent coverage; and the District pays the remainder of the cost of the plan. Covered retirees are also responsible for personal deductibles and co-payments. The District pays for post-retirement dental and vision care for retirees only to age 65. Section 5.03 of the Retiree Medical Plan Agreement grants the authority to establish and amend the benefit terms to the Retirement Committee.

(In Thousands)

Contributions

Section 5.03 of the Retiree Medical Plan Agreement grants the authority to establish and amend the contribution requirements of the District and Retiree Medical Plan members to the Retirement Committee. The Retiree Medical Plan Agreement directs the District to make contributions based on an actuarially determined rate. The District reserves the right to suspend or reduce the contributions otherwise payable to the Retiree Medical Plan by the District. The District's average contribution rate was 21.41% and 23.82% of covered-employee payroll, for the year ended December 31, 2023 and 2022, respectively. Plan members are not required to contribute to the plan.

Net OPEB Liability

The District's net OPEB liability was measured as of December 31, 2022 and 2021 for the District's December 31, 2023 and 2022 financial statements, respectively, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of January 1, 2022 for both years.

Actuarial Assumptions

The total OPEB liability was determined, using the following actuarial assumptions:

	2023	2022
Actuarial valuation date	January 1, 2022	January 1, 2021
Amortization method	Level percentage of payroll, open	Level percentage of payroll, open
Asset valuation method	Smoothed fair market value method with gains and losses recognized over three years	Smoothed fair market value method with gains and losses recognized over three years
Long-term expected rate of return	6.90%	6.90%
Discount rate	6.90%	6.90%
Inflation	2.00%	2.00%
Salary increases	4.00% per year	4.00% per year
Mortality	Pub-2010 General Employees Amount-Weighted Mortality, with generational projection using Scale MP-2020	Pub-2010 General Employees Amount-Weighted Mortality, with generational projection using Scale MP-2020
Post-retirement adjustments	2.50%	2.50%
Healthcare cost trend rates	Society of Actuaries Long-Run Medical Cost Trend Model released in 2007, version 2021_b	Society of Actuaries Long-Run Medical Cost Trend Model released in 2007, version 2021_b

The actuarial assumptions used were based on the results of an actuarial experience study for the period January 1, 2009 - December 31, 2012.

(In Thousands)

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The total return should exceed the Retiree Medical Plan's actuarial assumption of 6.9%. The Retiree Medical Plan's investment policy does not establish long-term expected rates of return for each asset class. The following is the Board's adopted asset allocation policy:

Asset Class	Target Allocation
Cash	- %
Fixed Income and U.S. governmental obligations	25.0
International stocks	15.0
Domestic stocks	45.0
Hedge funds	10.0
Public real estate	5.0
Opportunistic portfolio	-

Discount Rate

The discount rate used to measure the total OPEB liability was 6.90% for the years ended December 31, 2023 and 2022. The projection of cash flows used to determine the discount rate assumed that District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position will be available to make all projected future benefit payments of current plan members and the long-term expected rate of return on OPEB plan investments was used to determine the total OPEB liability.

(In Thousands)

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current discount rate.

The sensitivity analysis as of December 31, 2023 and 2022 follows:

	1% Decrease	Current Discount Rate	1% Increase
December 31, 2023	$ 45,795	$ 34,431	$ 24,743
December 31, 2022	29,895	18,505	8,815

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates.

The sensitivity analysis as of December 31, 2023 and 2022 follows:

	1% Decrease	Healthcare Cost Trend	1% Increase
December 31, 2023	$ 21,926	$ 34,431	$ 49,286
December 31, 2022	7,075	18,505	32,072

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The District recognized OPEB expense (revenue) of $(5,457) and $(9,683) for the years ended December 31, 2023 and 2022, respectively.

At December 31, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 2,476	$ 3,590
Changes of assumptions	1,147	26,028
Net difference between projected and actual earnings on OPEB plan investments	11,686	-
Contributions subsequent to the measurement date*	10,458	-
Total	$ 25,767	$ 29,618

(In Thousands)

At December 31, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 3,096	$ 4,975
Changes of assumptions	2,657	37,696
Net difference between projected and actual earnings on OPEB plan investments	-	9,236
Contributions subsequent to the measurement date*	10,464	-
Total	$ 16,217	$ 51,907

* The amount reported as deferred outflows of resources resulting from contributions subsequent to the measurement date is recognized as a reduction in the net pension liability in the subsequent year.

Deferred outflows resulting from contributions subsequent to the measurement date is recognized as a reduction in the net OPEB liability in the subsequent year. Remaining amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Years ending December 31:	
2024	$ (10,234)
2025	(5,382)
2026	(2,169)
2027	3,476
2028	-

Payable to the OPEB Plan

At December 31, 2023 and 2022, the employer did not have a payable for any outstanding amount of contributions to the OPEB plan required.

(In Thousands)

12. Retiree Medical Plan

The following disclosures relate to the Retiree Medical Plan fiduciary activities as required by GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. Plan information related to December 31, 2022 is included in Note 10 with regard to the December 31, 2023 net OPEB liability, unless otherwise stated below.

Plan Membership

At December 31, 2023, Retiree Medical Plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefit payments	412
Inactive plan members entitled to but not yet receiving benefit payments	-
Active and disabled plan members	431
Total	843

Investment Policy

The Retiree Medical Plan's policy in regard to the allocation of invested assets is established and may be amended by the Retirement Committee. It is the policy of the Retirement Committee to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The Retiree Medical Plan's investment policy includes restrictions for investments related to maximum amounts invested as a percentage of total portfolio, with a single issuer, and within market sectors and styles, minimum market capitalization, maximum maturities, and minimum credit ratings. See the target investment mix below. The total return should exceed the Retiree Medical Plan's actuarial assumption of 6.90%. The Retiree Medical Plan's investment policy does not establish long-term expected rates of return for each asset class. The following is the Board's adopted asset allocation policy:

Asset Class	Target Allocation
Cash	- %
Fixed income and U.S. governmental obligations	25.0
International stocks	15.0
Domestic stocks	45.0
Hedge funds	10.0
Public real estate	5.0
Opportunistic portfolio	-

(In Thousands)

Rate of Return

For the year ended December 31, 2023 and 2022, the annual money-weighted rate of return on investments, net of investment expense was 15.18% and -17.16%, respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net OPEB Liability of the District

The components of the net OPEB liability of the District at December 31, 2023, were as follows:

Total OPEB liability	$ 113,794
Retiree Medical Plan fiduciary net position	95,108
District's net OPEB liability	$ 18,686
Retiree Medical Plan fiduciary net position as a percentage of the total OPEB liability	83.6%

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of January 1, 2023, using the following actuarial assumptions, applied to all periods included in the measurement:

- Inflation: Medical CPI: 2.0% per year
- Salary Increases: 4.00%
- Investment rate of return: 6.90%
- Healthcare cost trend rates: Pre-Medicare trends decreasing from 7.00% to 4.14% over 20 years. Medicare trends starting at 1.10%, increasing to 5.4% in 2026 and then decreasing over the next 17 years to 4.14%.
- Mortality rates were based on the Pub-2010 Amount weighted mortality with generational projection using Scale MP-2020.

The actuarial assumptions used were based on the results of an actuarial experience study for the period January 1, 2009 - December 31, 2012.

Discount Rate

The discount rate used to measure the total OPEB liability was 6.90%. The projection of cash flows used to determine the discount rate assumed that District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position will be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

(In Thousands)

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the District for the December 31, 2023 measurement date, as well as what the District's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage-point higher than the current discount rate.

The sensitivity analysis as of December 31, 2023 follows:

	1% Decrease (5.9%)	Current Discount Rate (6.9%)	1% Increase (7.9%)
Net OPEB liability	$ 30,202	$ 18,686	$ 8,880

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the net OPEB liability of the District for the December 31, 2023 measurement date, as well as what the District's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates.

The sensitivity analysis as of December 31, 2023 follows:

	1% Decrease	Healthcare Cost Trent Rates	1% Increase
Net OPEB liability	$ 6,005	$ 18,686	$ 33,779

13. Commitments

The District purchases most of its purchased power from M-S-R (Note 7) and through the following long-term agreements:

Other Energy Purchase Commitments

The District has a number of other power and natural gas purchase agreements with various entities, which provide for power and fuel deliveries, under various terms and conditions. Total commitments under these agreements over the next five years are as follows:

Years ending December 31:	
2024	$ 174,707
2025	161,158
2026	72,450
2027	67,893
2028	63,106

14. Contingencies

General Contingencies

In the normal course of operations, the District is party to various claims, legal actions and complaints. However, the District's counsel and management believe that the ultimate resolution of these matters will not have a significant adverse effect on the financial position or results of operations of the District.

Open Contracts

The District has open contracts for approximately $43,744 for various capital and operating projects. As of December 31, 2023, approximately $29,841 has been expended.

Electric Purchase Contracts

The District has entered into numerous electric purchase contracts with amounts totaling approximately 1,662 megawatt hours (MWh) for the purpose of fixing the rate on the District's electric power purchases. These electric purchase contracts result in the District paying fixed rates ranging from $49.00 to $162.00 per MWh. These contracts expire periodically from February 2024 through December 2025. The District also entered into two capacity contracts, also known as call options, that have fixed rates ranging from $16/KW-mo to $25/KW-mo. These contracts start in May 2024 and expire in October 2024. In addition, the District has entered into contracts for power generated by hydroelectric, solar and wind resources where the amount and cost will depend on weather variables. The hydro, solar and wind contracts expire periodically from December 2024 through December 2043.

Gas Purchase Contracts

The District has entered into numerous gas purchase contracts for the purpose of fixing the rate on the District's natural gas purchases for its gas-fueled power plants. These gas purchase contracts result in the District paying fixed rates ranging from $3.77 to $8.66 per million British Thermal Units (mmbtu). The amounts total to approximately 4.8 million mmbtu and the contracts expire periodically from January 2024 through December 2026.

(In Thousands)

15. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; workers compensation; and health care of its employees. These risks are covered through the purchase of commercial insurance. The District is self insured for general and liability claims up to $1,000. The District also has excess liability insurance for claims over $1,000. There was no significant decrease in coverage over the prior year. Settled claims have not exceeded insurance coverage in each of the past three years. Claims are paid as they are incurred. Total accrual and payment history is shown below.

	2023	2022	2021
Claims liability, beginning of year	$ 669	$ 415	$ 563
Claims accrued	2,101	1,719	619
Claims paid/other	(2,388)	(1,461)	(767)
Claims liability, end of year	$ 382	$ 673	$ 415

16. Subsequent Events

Rate Adjustment

On November 15, 2022, the District had a public hearing and approved an increase in electric rates effective January 1, 2024, of 3.5%. On November 14, 2023, the District held a public hearing and approved an additional increase in electric rates effective January 1, 2024, of 7.5%. The District also approved a 5.5% electric rate increase effective January 1, 2025, along with a Power Cost Adjustment (PCA) to recover the change in power supply costs.

Notes to Schedule:

The District implemented GASB Statement No. 74 in fiscal year 2017. Information prior to fiscal year 2017 is not available.

The District implemented GASB Statement No. 75 in fiscal year 2018. The District uses a one year lag in its measurement date to record its net OPEB liability in the District's financial statements.

Note: This schedule is to show information for 10 years.
However, until a full 10-year trend is compiled, governments should present information for those years for which information is available.

Retiree Medical Plan

Valuation Date:

Actuarially determined contribution rates are calculated as of:

Fiscal year 2023	1/1/2023
Fiscal year 2022	1/1/2022
Fiscal year 2021	1/1/2021
Fiscal year 2020	1/1/2020
Fiscal year 2019	1/1/2019
Fiscal year 2018	10/15/2018
Fiscal year 2017	1/1/2017

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial cost method	Normal cost method
Amortization method	Level percentage of payroll, open
Amortization period	3-year smoothed market
Asset valuation method	Fair value
Inflation	1.33 percent
Healthcare cost trend rates	5.0 percent for 2020, starting in 2017 at 6.5 percent and decreasing 0.5 percent per year to an ultimate rate of 4.5 percent in 2021 2022 Medical Trend assumptions were developed using the Society of Actuaries (SOA) Long-
Salary increases	4.0 percent
Investment rate of return	2019-2023 6.90%* *net of OPEB plan investment expense, including inflation
Single equivalent discount rate	2020-2023 6.90% 2019 4.80%
Retirement age	Retirement probability begins at 10.0 percent upon obtaining the age of 55, decreasing to 5.0 percent at age 56, then increasing to 35.00 percent at age 60. At age 61 retirement probability decreases to 15.0 percent and increases to 50 percent at age 62.
Mortality (2017 - 2020)	Decreasing to 25 percent at age 63 and increasing to 100 percent at 65. RP-2000 Blue Collar Generational Mortality Table projected with a 75 percent Scale AA.
Mortality (2021 - 2023)	Pub-2010 General Amount-Weighted Mortality, with generational projection using Scale MP-2020

Other Information:

The District implemented GASB Statement No. 74 in fiscal year 2017. Information prior to fiscal year 2017 is not available.

The District implemented GASB Statement No. 75 in fiscal year 2018. The District uses a one year lag in its measurement date to record its net OPEB liability in the District's financial statements.

(In Thousands)

Basic Retirement Plan

	2023 - 2020	2019 - 2015
Actuarial cost method	Entry Age Normal Method	Entry Age Normal Method
Amortization method	20 year amortization method	30-year rolling, level-dollar amortization method
Asset valuation method	Smoothed fair market value method with gains and losses recognized over five years	Smoothed fair market value method with gains and losses recognized over three years
Long term expected rate of return	6.90%	7.50%
Discount rate	6.90%	7.50%
Inflation	2.50%	2.50%
Salary increases	4.00% per year, compounded annually	4.00% per year, compounded annually
Mortality	Pub-2010 General retirees Amount weighted mortality, with generational projection using Scale MP-2020	RP-2000 Blue Collar Generation Mortality Table projected with a 75% of scale AA
Post-retirement adjustments	2.50% *	2.50%
Overtime assumptions	4 percent plus 4 to 16% of current salaries for employees who are expected to have significant increased in their final average salaries due to overtime. Overtime assumption of 0% for Post-2005 eligible employees.	4 to 16% of current salaries for employees who are expected to have significant increased in their final average salaries due to overtime. Overtime assumption of 0% for Post-2005 eligible employees.

* Beginning in 2021, the post-retirement adjustments assumed a 2.40% for Tier 1 (Pre-2006 hires), 2.24 percent for Tier 2 and 3.

Normal retirement age - tier 1 and tier 2	60
Normal retirement age - tier 3	65

GASB 68 requires that 10 years of comparative data be shown for all the data presented above. However, as this information is unavailable for the periods preceding 2015, only the data since 2015 is being presented.
