

BUSINESS REBATE CATALOG

Save money on qualified refrigeration, appliances, and more.

ARE YOU
PLUGGED
IN?

Modesto Irrigation District (MID) has various programs that can help your business unplug to conserve energy and plug-in to sustainability.

The power is in your hands.

Learn more at mid.org

HOW TO APPLY

1. Read the Terms and Conditions at mid.org to determine if you are eligible for a rebate.
2. Locate the item(s) that you are applying for in this catalog. Be sure to review the important qualification information.
3. **Contact MID to schedule a pre-inspection if required.**
4. Request MID pre-authorization if rebate is anticipated to exceed \$3,000.
5. Purchase and install the qualifying product(s) in your business.
6. Complete, sign and submit your application, with all necessary documents, within 90 days of purchase.
7. Please send completed forms and required documentation with proof of purchase to:

REFRIGERATION

Please read the details below to ensure you are installing a qualifying product(s).

VENDING MACHINE CONTROLLER

Requirements

- Intended for refrigerated vending machines containing only non-perishable bottled or canned beverages.
- Controller must include a passive infrared occupancy sensor to turn off display lights and compressor when surrounding area is unoccupied for 15 minutes or longer.
- Control logic should periodically power up machine at 2-hour intervals to maintain product temperature and provide compressor protection.
- Refurbished vending machines that include this option are eligible.

REBATE PER CONTROLLER

PLASTIC SWINGING DOORS

Requirements

- New plastic swinging doors must be installed on doorways of refrigerated spaces (conditioned to less than 50° F).

REBATE ID CR022

\$6

REBATE PER SQ FT

NIGHT COVERS FOR VERTICAL AND HORIZONTAL CASES

Requirements

- Must install a cover on an otherwise open display case to decrease cooling load of the refrigerated case during off hours.
- These film-type covers should have small, perforated holes to decrease moisture buildup.
- Case manufacturer must not object to the use of this measure.
- The cover must be applied for a period of at least six hours per day.

ENERGY STAR® COMMERCIAL ICE MACHINES

Requirements

- Ice machines must be tested in accordance with the Air-Conditioning, Heating, and Refrigeration Institute (AHRI) Standard 810. Visit www.ahrinet.org for product information and testing procedures.
- Specifications are available at www.energystar.gov/cfs and www.cee1.org
- A list of qualifying units can be found at www.cee1.org.
- Includes machines generating ice cubes that are 60 grams (2 oz.) or lighter. It also includes flaked, crushed and fragmented ice makers.
- Only air-cooled machines qualify (self contained, ice making heads, or remote condensing).
- The entire AHRI tested ice making system must be purchased. Remote machines must be purchased with qualifying remote condenser or remote condenser/compressor unit.

APPLIANCES

Please read the details below to ensure you are installing a qualifying product(s).

ENERGY STAR® ROOM AIR CONDITIONER

Requirements

- Must be ENERGY STAR® qualified.

Limitations

- Limit 2 ENERGY STAR® qualified Room Air Conditioner rebates per business.

REBATE ID CAP001

\$50

REBATE PER UNIT

ELECTRIC TANK STORAGE WATER HEATER

Requirements

- Capacity must be 40 gallons or more.
- Must have an Energy Factor (EF) of 0.96 or greater.

Exclusions

- Only residential-style electric storage water heaters qualify.
Go to www.ahridirectory.org for a list of qualifying water heaters.
- Instantaneous/tankless water heaters do not qualify.

REBATE ID CAP002

\$75

REBATE PER UNIT

ENERGY STAR® HEAT PUMP STORAGE WATER HEATER

Requirements

- Must qualify as an ENERGY STAR® heat pump water heater - see www.energystar.gov/productfinder/product/certified-water-heaters/ for a list of qualified heat pump water heaters.
- Must replace electric tank storage water heater.
- Must have a Uniform Energy Factor (UEF) of 2.2 or greater.
- Must have a capacity greater than 40 gallons.
- Must be installed outside the air-conditioned working space.

Limitations

- Limit 1 ENERGY STAR® qualified Heat Pump Water heater rebate per business.

REBATE ID CAP003

REBATE PER UNIT

HEATING, VENTILATION & AIR CONDITIONING

Please read the details below to ensure you are installing a qualifying product(s).

COMMERCIAL AIR CONDITIONING

- Rebate amounts will be calculated based on unit cooling capacity to the nearest 6,000 Btu/h.
- Eligible units must meet all the minimum efficiency performance criteria applicable for each equipment category.
- A California licensed contractor with a C-20 license must perform installation. An exception to this requirement may be made in cases where a customer has their own qualified employee(s), as designated by appropriate job title, install qualifying air conditioning at their

business location.

- Contractor must complete and sign the Information and Certification portion of the rebate application.
- Brand name and model numbers must be included on invoice.
- For Split or Packaged Unitary Systems < 65,000 Btu/h (single phase), units must be listed (Active status) on the CEE Directory of Efficient Equipment (www.ceedirectory.org). All other units must be listed (Active status) on the AHRI Directory of Certified Product

Performance (www.ahridirectory.org).

- Attach the current AHRI Certificate of Product Ratings.
- For rooftop installations, customer must provide code-compliant access for MID inspection.
- Rebate given for replacing an existing air conditioner or adding a new unit.

Terms:

CEE = Consortium for Energy Efficiency;
AHRI = Air Conditioning, Heating and Refrigeration Institute.

PACKAGE TERMINAL AC & HEAT PUMP (<24,000 BTU/H)

Unit Capacity	EER - PTAC	EER - PTHP
< 7,000 Btu/h	11.29	11.17

REBATE PER UNIT

HEATING, VENTILATION & AIR CONDITIONING (continued)

DUCTLESS MINI-SPLIT AC & HEAT PUMPS (<65,000 BTU/H)

Ductless mini-split air conditioning systems (a.k.a. ductless heating and cooling systems) are highly efficient products that deliver warm or cool air directly into different zones in the building, instead of routing it through ducts first. They are a cost-effective solution to replace inefficient baseboard electric heating and window air conditioners.

- Minimum efficiency 18.0 SEER, 11.0 EER, 10.0 HSPF.
- Unit equals inside head.
- System cooling capacity cannot exceed 5 tons.

ENERGY STAR® SMART THERMOSTAT

Requirements

- Thermostats must qualify as an ENERGY STAR® Smart Thermostat. See www.energystar.gov/productfinder/product/certified-connected-thermostats/results for a list of qualified thermostats.
- Smart thermostat must be new and replace existing manual or programmable thermostat on a central heating and cooling system.

Limitations

- Limit 6 thermostat rebates per business.

REBATE ID CH024

 REBATE PER UNIT
 for central AC/
 Heat Pump - electric heating

UNITARY SPLIT - SYSTEM & SINGLE - PACKAGE AC & HEAT PUMP (<65,000 BTU/H)

A Unitary Air Conditioner is one or more factory-made assemblies ordinarily including evaporator coil(s), compressor(s), and condenser(s). An Air-Source Unitary Heat Pump ordinarily includes these same components plus a reverse mode for heating. When these components are integrated into one cabinet, they are single packaged units; when provided in separate assemblies and designed to be used together, they are split systems.

Additional Requirements

- AC units must meet SEER and EER; Heat Pumps must meet SEER, EER and HSPF.
- Single phase, split systems < 65,000 Btu/h using water/evaporative cooled condensers may be eligible provided that the a/c system has a current AHRI Certificate of Product Ratings. MID will determine qualification for rebate.

HEATING, VENTILATION & AIR CONDITIONING (continued)

UNITARY SPLIT - SYSTEM & SINGLE - PACKAGE AC & HEAT PUMP (65,000 BTU/H & <760,000 BTU/H)

These units are factory-made Commercial and Industrial Unitary Air-Conditioning and Heat Pump Equipment, as defined by AHRI Standard 340/360. This standard applies only to electrically operated, vapor compression refrigeration systems.

Additional Requirements

- For units with cooling capacity of 20 tons or more, contact MID Energy Services at (209) 526-7339 prior to installation.
- AC units must meet EER and IEER; Heat Pumps must meet EER, IEER and COP.

Minimum Required Efficiency: CEE Tier 1		AC		Heat Pump (HP)

ELECTRIC VEHICLE CHARGER

Please read the details below to ensure you are installing a qualifying product(s).

LEVEL 2 ELECTRIC VEHICLE CHARGER

Requirements

- Business chargers must be permanent installed hard-wired wall mounted or hard-wired pedestal mounted and rated at 240/208 Volts. Compliance with local building codes and related inspections are required.
- EV chargers must be for the sole use of Department of Transportation-approved highway vehicles.
- Business charges must be installed at businesses being served under one of the following MID electric rates: GS-1, GS-2, GS-TOU, GS-3, IC-25, P-3, P-4.
- Qualifying Level 2 charger(s) must be new and unused and certified by either Underwriters Laboratories Inc. (UL Listed) and/or ETL Intertek listed.

Documents Needed

- Paid in full invoice where qualifying EV charger cost is itemized.

Limitations

- Limit 6 charger plug rebates per business.

Exclusions

- Chargers for carts, motorcycles, electric scooters and portable chargers do not qualify for this incentive.

REBATE ID EV001

UP TO **\$350**

REBATE PER CHARGER

WINDOW SUN SHADING

Please read the details below to ensure you are installing a qualifying product(s).

WINDOW FILM, SUN SCREEN AND AWNINGS

Requirements

- Must be installed according to the manufacturer's instruction on south, east or west facing windows (any direction except 45 degrees of true north). Qualification of marginal orientations and/or circumstances is subject to the sole discretion of MID.
- Number of windows and square feet installed must be included on invoice.
- Must have a minimum five-year manufacturer's warranty.
- Must be installed in space conditioned by refrigerated air conditioning (central, window or wall unit).
- Awning must be at least as wide as the window aperture.

Exclusions

- Interior window treatments (curtains, blinds and shutters) are not eligible for Sunscreen rebate.
- Windows must not be shaded by existing awnings, exterior curtains or blinds or any other shading device.

Other Information

- Rebate based on square footage of qualifying window.

HOW TO DETERMINE SOLAR HEAT GAIN COEFFICIENT

Multiply the shading coefficient (SC) by 0.87 to determine the solar heat gain coefficient (SHGC). $SC \times 0.87 = SHGC$

WINDOW FILM: Must have a SHGC of .39 or less and cover the entire window aperture. Applied to the glass only. Doesn't cover an opening.

SUN SCREENS: Must have a SHGC of .35 or less and cover the entire window aperture.

AWNING: Must be at least as wide as the window aperture.

POOL FILTRATION PUMP

Please read the details below to ensure you are installing a qualifying product(s).

ENERGY STAR® QUALIFIED VARIABLE-SPEED POOL PUMP & MOTOR

Requirements

- All manufacturer installation requirements must be followed.
- Permit required if electrical upgrades required.
- See www.energystar.gov/products/pool_pumps for a list of qualified units.
- **Only variable-speed units are eligible for rebate.**
- Equipment and materials must meet or exceed all applicable local, state and federal standards.
- Must be installed on new or existing in-ground swimming pools for primary filtration only.
- Replacement units must be of equal or lesser horsepower that existing single or two speed pump and motor (retrofit only).

Exclusions

- Cannot exceed 10 horsepower.
- Above-ground pool, pond, pool cleaner booster, spa and water feature pumps and rewinding of motors do not qualify.

Limitations

- Limit 4 ENERGY STAR® Qualified Variable-Speed Pool Pump and Motor rebates per business.

Pre-inspection required.

2. Read the Terms and Conditions for rebates below.
3. Submit complete rebate application package to:
MID Energy Services
PO Box 4060
Modesto, CA 95352

For questions on rebates contact
209-526-7339

TERMS AND CONDITIONS

General

- MID reserves the right, without prior notice, to periodically review and make changes to rebate program terms and conditions and to determine final program eligibility.
- MID makes no representation or warranty and assumes no liability with respect to quality, safety, performance, or other aspect of design, system or appliance installed pursuant to this agreement and expressly disclaims any such representation, warranty or liability.

Availability

- Rebate amount is based on the program offering and funding levels applicable on the date the application is received and is offered on a first come - first served basis, subject to availability of funds.
- MID rebate funding is not guaranteed until the application has been approved.
- Rebates are available only for products that are not required by or are in excess of CA Title 24 requirements, when applicable. MID may request Title 24 compliance documentation before approving any rebate.
- Rebates anticipated to exceed \$3,000 and all exceptions require pre-authorization of the MID Energy Services Department. Rebates issued at the sole discretion of MID.

Eligibility

- Rebates are provided for qualifying product(s) installed in a business location receiving electricity from MID to customers in good financial standing with MID (subject to MID approval).
- Qualifying products must be installed before submitting your application. It is the responsibility of the contractor and customer to ensure installation is done in accordance with all applicable city, state and national standards, codes and ordinances as enforced by the local compliance authority.
- Products can only receive one rebate from MID during its useful life period.
- Reapplication for rebate will not be accepted during this period.
- MID reserves the right to request specific manufacturer specifications and/or data for any product.

- The application and supporting materials should be legible, **submitted to MID within 90 days of purchase date.**
- These rebates do not apply to new construction, additions to existing facilities, or reconstruction of existing facilities (i.e.: gut and rehab, change of occupancy) that must comply with CA Title 24 Energy Standards. See MID web site for information about rebates for non-residential new construction.

Processing

- Only complete applications will be processed for rebates. **Complete applications include signature, proof(s) of purchase and required documentation for all products referenced in the application.**
- For incomplete application, MID will notify customer of missing documentation. If the required documentation is not received by MID within 30 days, the application will be voided.
- Rebates take six to eight weeks to process.

Purchase

- Purchase and install qualifying products(s) new at retail price. See catalog for item details.
- For all qualifying measures, the product purchase date is determined by proof of purchase documents, such as the customer acceptance date of a contract for services, a detailed itemized and dated paid invoice, contract, or the printed date on a store cash register receipt.
- Proof of purchase document(s) must include price per product and detailed payment terms or "type of transaction" (i.e., cash, credit, etc.).
- Leases and/or performance-based projects and previously owned equipment do not qualify for MID rebates.

Inspection

- Pre-Inspection may be required. See catalog for item details.
- Customer must disclose to MID, at the time of the rebate pre-inspection (if required for rebate item), exactly what energy efficiency modifications are planned and where on the premises they will be installed.
- Projects that significantly differ in application, scope of install location from MID's

information may not be eligible for rebate.

- All products are subject to a post installation inspection by MID.
- MID reserves the right to request manufacturer specifications and/or data for any product.

Payment

- Rebates may be issued as a credit or check. (See required W-9 information below if requesting a check).
- IRS W-9 form is required for rebates issued by check. IRS W-9 form must be current version. In requesting a W-9 MID makes no inference that the rebate is or is not subject to Federal and/or State income tax reporting. Applicant is responsible for contacting a qualified tax advisor to determine tax liability. MID is not responsible for any taxes that may be imposed as a result of these rebates.
- Rebate payments are limited to 100% of eligible costs of qualifying products (excludes installation, taxes, shipping, handling and warranty costs and minus any funds received from other sources).
- Funds received from sources other than MID rebate programs that lower the cost of the project may reduce the incentive amount applicants receive from MID. These sources include all third-party energy efficiency programs offering direct funding, financing or rebates (other than tax credits). The funded amount(s) will be deducted from the actual and documented Project Cost when calculating eligible project cost.
- Applicants are required to inform MID of any other incentives for which they have applied and/or may receive.

Annual Application Cap

- The annual application cap for this program is determined per account, by the applicable MID electric rate schedule:
\$10,000 (GS-1, FL, SL)
\$20,000 (P-3, GS-2 up to 499 kW)
\$30,000 (GS-2 500-1000 kW, GS-TOU)
\$50,000 (P-4, GS-3)
\$75,000 (IC-25)
- Applications for rebates above these amounts will not be accepted unless preauthorized by MID.
